THE

NINETEENTH REPORT

OF THE

COMMISSIONERS OF NATIONAL EDUCATION IN IRELAND.

(FOR THE YEAR 1852.)

TO HIS EXCELLENCY EDWARD GRANVILLE, EARL OF ST. GERMANS, C.B.,

LORD LIEUTENANT-GENERAL AND GENERAL GOVERNOR OF IRELAND.

May it please your Excellency,

I.—1. We, the Commissioners of National Education in Ireland, beg leave to submit to your Excellency this our Nineteenth Report.

II.—2. On the 31st of December, 1851, we had 4,704 schools in operation, which were attended by 520,401 children. At the close of the year 1852, the number of schools in operation was 4,875, and of pupils on the rolls, 544,604; showing an increase in the schools in operation of 171, and an increase in the attendance for the year 1852, as compared with the year 1851, of 24,203 children. Number of schools in operation.

3. Besides the 4,875 schools in operation, there are 75 schools not yet in operation, towards which, at various times, we have made building grants; of these grants, 22 (involving liabilities to the extent of £1,579 7*s.* 6*d.*) were made during the year 1852. When the buildings for these 75 schools shall have been completed, they will afford accommodation to 7,475 additional pupils. Building grants.

4. The number of schools struck off the rolls, during the year 1852, for the various reasons specified in the Total number of schools.

Appendix, was 112;* 13 schools were suspended, which may hereafter be re-opened; and 264 new schools were added to the list. The entire number of schools on our rolls, on the 31st December, 1852, was 4,963, including those in operation, those suspended, and those towards the building of which we have promised aid.

Increase in the number of schools.

5. The following Table shows the number of National Schools, together with the number of children in attendance therein, as specified in our several Reports, to the 31st of December, 1852. From this Return it will be seen, that there has been a steady increase in the attendance at the National Schools every year, except in 1847 and 1849, the decrease in which years is attributable to the causes adverted to in the Reports for those years.

Average number on the rolls of each school.

6. The total attendance in 1852 of 544,604 children, in the 4,875 schools in operation, gives an average, on the rolls, of 111·71 to each school.

Average daily attendance of pupils.

7. We stated in our last Report, that it was our intention, in future, to publish a Return of the average daily attendance at each school, as well as the number on the rolls. It will be seen from the subjoined table, that the total number of children on the rolls for the year 1852 was, 544,604, and the average daily attendance, 282,575, being rather more than one-half of the total number of children on the rolls.

* Of the 112 schools struck off the roll during the last year, 101 belonged to the class of Operation Schools. To the remaining 11 schools grants for building had from time to time been awarded, which grants were cancelled for various reasons during the year 1852.

8. As the accuracy of the Returns published by our authority, in our various Reports, of the number of children on the rolls, continues to be questioned, we deem it necessary to repeat the statement made in our last Report, viz., that "these Returns are furnished to us half-yearly by the Patrons or Managers of the schools; that they contain the names of all the children who have been in attendance for any portion of each half-year; and that the names of the Patrons or Managers are affixed to the Returns, certifying that they have examined the class-rolls, and found them to be correct. Whenever a report is made to us by our Inspectors, or other parties, that the lists of attendance in any particular school have been falsified by the Teacher, an inquiry into the facts is ordered; and if the allegation be proved, we inflict such punishment as the nature of each case demands." We beg to assure your Excellency, that every precaution is taken by us to furnish our statistical Returns in as correct a form as possible, and that we are at all times desirous of affording the fullest information to Parliament on the progress and working of the National system of Education in all its branches.

Alleged inaccuracy in the Returns furnished by the Commissioners of the attendance of the children on the rolls.

9. The following summary exhibits the number of

Number of National Schools

* There was, in addition to these numbers, an attendance of 4,294 children, with an average of 2,570 in schools to which salaries were granted during the three months, from the 30th September to the 31st December, 1852, making the total attendance on the rolls 544,604, with an average daily attendance of 282,575.

in each province, with the number of children in attendance.

National Schools, in each province, on the 31st of December, 1852, and the number of children on the rolls, for the half-year, ending the 30th September, 1852, distinguishing those schools which were in operation, those to which we have promised building grants, and those suspended.

* There was, in addition to this number, an attendance of 4,294 children in schools to which salaries were granted during the three months, from the 30th September to the 31st December, 1852, making the total attendance on the rolls 544,604, being an average of 111·71 children per school.

11. Of the 264 schools specified in the preceding table, 251 are under the management of 205 separate individuals, many of them having more than one school under their care. The following is the number of Patrons of each religious denomination:—Church of England—clerical, 8, lay, 17; Presbyterian—clerical, 16, lay, 3; Roman Catholic—clerical, 141, lay, 20. Total Protestants of all persuasions, clerical and lay, 44; total Roman Catholic, clerical and lay, 161. Of the remaining 13 cases 11 were joint applications from 18 persons of different religious denominations, and 2 were Model Schools, of which we are the patrons.

Number and religious denominations of the Patrons or Managers of the new schools taken into connexion in 1852.

12. It will be seen from the foregoing tables, that we have made grants to build and furnish 75 schools, 22 of which are grants for the year 1852. Many of these schools have been for some time in progress of building, and will be soon completed: others have been only recently commenced: and towards the erection of the remainder no steps have yet been taken. The outstanding grants, made in various years, to these 75 schools, amount to £5,249 19*s.* 2*d.* In addition to the 22 new building cases, we awarded grants of salaries and books to 242 new schools, making, in 1852, a total of 264 new cases.

Amount of grants to new schools in 1852.

13. There were 30 new schools opened during the year, towards the erection of which we had made grants. These are included in the 4,875 schools in operation, on the 31st December, 1852, and their names will be found inserted in a special list in the Appendix.

Number of schools brought into operation in 1852, towards the erection of which the Commissioners had made grants.

III.—14. At the termination of the year 1852, we had on our list, vested either in Trustees, or in our Board, 1,079 school-houses, containing 1,589 rooms, accommodating distinct schools. The number of non-vested schools was 3,335, amongst which, as in the case of vested schools, there are many in which male and female schools are held under the same roof, though in separate rooms.*

Total number of vested and non-vested schools.

15. During the year 1852, we made grants towards the repairs of schools vested in our Board, amounting to £813 9*s.* 3*d.*

Repairs of school-houses vested in the Board.

IV.—16. The number of applications for grants to new schools in the year 1852, was 405. To 264 of these we promised the requisite assistance, either for building, or for salaries and books. The remaining 141

Applications for grants to new schools.

* There are, in addition, 39 schools to be vested in the Board, the leases of which are in course of execution.

applications were rejected for various reasons, of which official records are kept.

Total amount of salaries, gratuities, &c. paid in 1852.

V.—17. The total amount of salaries, premiums, and gratuities, paid in 1852 to the principal literary Teachers of National Schools, Assistants, Paid Monitors, Workmistresses, Teachers of Agricultural Schools, Evening Schools, Workhouse Schools, and Organizing Teachers, was £82,964 17*s.* 8*d.*, being an increase over that of the year 1851 of £6,883 13*s.* 1*d.*

Increase in the rates of salaries to certain classes of the National Teachers in 1852.

18. Desirous of improving the condition of the Teachers of National Schools, whenever our funds enable us, we increased, from the 1st of April, 1852, the scale of salaries in the first and second classes, and in the first division of the third class, according to the following scale:—

MALES.

		Former Scale.	New Scale.
First Class,	1st Division,	£35	£36
	2nd Do.	28	30
	3rd Do.	24	25

Paid Monitors.

20. The amount paid to Monitors for the year 1852, in accordance with the following increased scale, was £1,748 8*s.* 4*d.*; and the number of Paid Monitors, at the close of the year, was 400, of which two-thirds were males, and one-third females. We have not com-

pleted our arrangements for making a still further addition to the number of Paid Monitors, to which subject we adverted in our Report for last year.

Amount of the sales of books to National Schools.

VI.—21. The value, at the reduced prices, of the books sold to National Schools, in the year 1851, was £5,887 15*s.* 9*d.*; in 1852, the value was £6,467 1*s.* 5*d.*; the increase over the preceding year £579 5*s.* 8*d.* The number of orders for books received in 1852 was 6,203, making the average amount of each order £1 0*s.* 10*d.* It thus appears that both in the amount of sales, and the number of orders, there was an increase in 1852.

Value of Free Stock.

22. The estimated value of the grants of books given as Free Stock, in 1852, was £7,944 16*s.* 5*d.* The number of grants was 2,305—being an average to each school of £3 8*s.* 11*d.*

Sale of National School Books in Great Britain and Ireland, and in the Colonies.

23. We are gratified to state that the demand for our National School books in England, Scotland, Wales, and the Colonies, in 1852, taken in the whole, was greater than in the previous year. The sales to the Committee of Council on Education amounted to £2,750 12*s.* 7*d.*; to schools for the poor in Great Britain and Ireland, not connected with our Board, and not receiving aid from it, or the Committee of Privy Council, £1,058 4*s.* 7*d.*; to schools of a similar description in the colonies, £422 5*s.* 8*d.*; to the Workhouse Schools in England, £178 6*s.* 10*d.*; to Factory Schools, £42 11*s.* 2*d.*; to Her Majesty's Stationery Office, for the use of prisoners and convicts, £49 2*s.* 8*d.*; and to the public generally, through our agents, £4,600 14*s.* 2*d.* The total amount of sales, therefore, to these various societies and schools, was £9,101 17*s.* 8*d.*, which, added to the sales to National Schools, makes a total amount of sales of £15,568 19*s.* 1*d.*

Number and amount of premiums for the encouragement of cleanliness.

VII.—24. The sum expended, in the year 1852, in premiums for the encouragement of cleanliness and good order, amounted to £767 10*s.*, which was paid according to the following scale, viz., in each district:—

Model Schools in Dublin.

Total number of children on the rolls on the 30th Sept., 1852.

VIII.—25. The number of pupils on the rolls of our Model Schools, in Marlborough-street, upon the 30th of September, 1852, was—males, 599; females, 480; infants, 400; making a total of 1,479. The average daily attendance has, at various times, in the course of the year 1852, exceeded 1,200.

26. The religious denominations of the 1,479 children on the rolls of the Model Schools, in Marlborough-street, at the above date, are specified in the following return:—

Number of Teachers trained in 1852.

IX.—27. We trained, during the year, and supported at the public expense, 302 National Teachers, of whom 213 were males, and 89 were females. We also trained 40 Teachers not connected with National Schools, who supported themselves during their attendance at the Model Schools, making the total number of Teachers trained, in 1852, 342. Of the 302 Teachers of National Schools trained during the year, 17 were of the Established Church, 43 Presbyterians, 240 Roman Catholics, and 2 Dissenters. The total number of male and female Teachers trained from the commencement of our proceedings to the 31st of December, 1852, is 3,420. We do not include in this latter number those Teachers who, at the time of their training, were unconnected with National Schools.

28. We subjoin two Tabular Returns—No. 1 showing the classification of the National Teachers trained during the year 1852, arranged under its respective divisions. No. 2 exhibits to what class the Teachers belonged at the commencement of their course of training, and at its termination.

X.—29. At the close of the year 1851, we had 128 Workhouse Schools under our Board. On the 31st of December, 1852, the number was 133, being an increase of 5 as compared with the preceding year. Of these schools, 28 are in Ulster, 49 in Munster, 31 in Leinster, and 25 in Connaught. The total amount of gratuities to these schools in 1852 was £320 5*s.*, awarded in accordance with the following scale:

ciently conducted. The number of children on the rolls, on the 30th of September, 1852, was 621; the average daily attendance, 360.

District Model Schools.

XII.—32. The Reports of our Head Inspectors, which will be found in the Appendix, give an accurate detail of the management, and afford satisfactory evidence of the flourishing condition of the District Model Schools. There were seven in operation at the close of 1851; two others have been since opened—one at Athy, in the county of Kildare; the other in the town of Galway. The former school has a Model Farm attached to it. Contracts for Waterford, Limerick, and Kilkenny District Model Schools have been accepted, and preparations for their erection have commenced. We are in correspondence with several parties for eligible sites for the erection of two additional District Model Schools, at Belfast and in Dublin, towards the building of which a sum of £5,000 was included in the Parliamentary estimate for 1852–3.

Extent of united education in the District Model Schools.

33. The extent to which united education is carried out in our District Model Schools, where the Clergy of different persuasions co-operate in the management of them, may be ascertained from the annexed Tabular Returns, taken from the Reports of the Head Inspectors, for the year 1852.

General Summary of the Religious denominations of the children on the rolls of the District Model Schools.

We have prepared the following Tabular statement which exhibits the total number of children on the rolls of the nine District Model Schools at present in operation, for the latest periods in 1852, as furnished by the Head Inspectors in the foregoing Returns.

County.	School.	Number of Children in each Religious Denomination.

It appears from the above Return that the whole number of Protestants in attendance at the District Model Schools is 763, and the entire number of Roman Catholics is 1,350.

XIII.—34. We refer with much satisfaction to the Report of Dr. Kirkpatrick, on Agricultural Schools and the Model Farm at Glasnevin. The following extract, with reference to the latter, contains some valuable suggestions which are at present under consideration:—

Dr. Kirkpatrick's Report on Agricultural Schools.

"In my last Report on the new farm buildings, I expressed an opinion that the buildings would be available in August last; but several unforeseen delays have occurred to retard their completion, so that I now find they will not be finished sooner than the month of October. In the meantime steps have been taken to carry out those improvements in the *educational* department, which I then referred to as practicable under the new arrangements. Already a respectable collection of minerals, agricultural maps and tables, prints of farm animals, &c., &c., have been procured, which, with further additions that we expect to obtain before the opening of the new establishment, will form a most useful and interesting accession to the Institution.

"As it is most important that the aid of machinery should be made available, as far as practicable, in performing the work of the farm-yard, and as it is equally important that such machinery should be of the most improved design and manufacture, I threw out a suggestion, which was approved by the Commissioners, that Mr. Kelly, secretary, Mr. Connolly, the contractor for the building, and myself, should be authorized to proceed to England and Scotland to examine the machinery in use in the best managed farming establishments of several of the most eminent agriculturists of these countries, by all of whom we were most courteously received, and cheerfully supplied with every item of information we required. After maturely considering the results of our experience thus acquired, we decided on having the necessary machinery ordered from a party in Scotland, who has been extensively engaged in such works, and it is now in a forward state, and will be erected in the new farm buildings in a few weeks.

"I expect that the portion of the new buildings set apart for the accommodation of the pupils, will be ready for their reception in a short time; and when they have been transferred to it, I anticipate that their instruction will be conducted with vastly increased satisfaction and efficiency. It is proposed that henceforth a quarterly journal shall be published at the Model Farm, edited by Mr. Baldwin, the Literary Master, who has submitted to me a prospectus of the intended publication, of which I highly approve, as it will serve not only to chronicle all the interesting and useful proceedings of the Glasnevin Model Farm, but will also contain original articles by the officers and pupils of the Glasnevin establishment, and by the most intelligent of the Agriculturists and teachers of the several Agricultural National Schools throughout the country (to all of whom it will be supplied gratuitously), thus serving as a powerful stimulus to the constant acquirement of agricultural knowledge, and of the faculty of communicating it to others in suitable language. It will, of course, be devoted exclusively to agriculture and its kindred sciences; and as it will be confined to the conductors of National Agricultural Schools (who will still continue, as at present, to receive other agricultural

periodicals), it will not interfere with the circulation of any agricultural publication conducted by private enterprise.

"Another important means of instruction and source of information for the pupils at Glasnevin, is the opportunities that will constantly be afforded them of attending lectures on botany, geology, natural philosophy, &c., and agricultural meetings in the city, and of which they have, to a certain extent, availed themselves during the past season, as may be seen from Mr. Donaghy's Report. The privilege of attending the monthly evening meetings of the Royal Agricultural Improvement Society of Ireland, which has been most kindly and cheerfully accorded to them by the Council, I regard as most important, as, on these occasions, they have not only the advantage of hearing one or two ably written papers on the leading agricultural topics of the day, read by members of the society, but also of hearing the merits of these questions ably and fully discussed by the members present. Still, with all these advantages and opportunities for acquiring information, I think we should fall far short of realizing the character of a first-rate Agricultural Training Institution, unless some further improvements are effected. To make them efficient and successful *Teachers* of Agriculture, our pupils must be afforded a much wider range of instruction than heretofore. I think it is of the highest importance that the sciences intimately connected with agriculture—such as botany, geology, mineralogy, and chemistry, should receive a due share of attention, and occupy their proper places in the curriculum of study. Heretofore there were no proper facilities for having these subjects taught and illustrated to the pupils, and I have heard many of the most intelligent of those who left the Institution deeply regret this defect in their education. I have every reason to hope, that if a good foundation were laid of a knowledge of these sciences while at Glasnevin, the pupils themselves would afterwards prosecute the study of them in their leisure moments, as a species of intellectual recreation and enjoyment. On reference to the Report on the Dunmanway Agricultural School, it will be seen that the Agriculturist purchased, out of his own private funds, a chemical apparatus which cost £6: the same was done at Loughash and Ballougry Agricultural Schools, and would, I am sure, have been done in many other cases, had the Agriculturists previously acquired such a knowledge of the practical details of this science as to be able to conduct simple processes in it. Again, if the pupils had such a knowledge of botany as to enable them to recognise and classify the several plants indigenous to our soil, they could form valuable botanical collections, which would prove interesting and instructive to their pupils. I would, therefore, suggest that properly qualified persons be employed to deliver certain courses of lectures on these sciences to each class of pupils to be hereafter trained at Glasnevin."

It will be seen from the extracts from the "Visitors' Book," appended to the Report of Mr. Donaghy, agriculturist at Glasnevin, that several persons of distinction visited the establishment during the year, and expressed their approbation of the efficiency with which it is conducted. But it affords us peculiar pleasure to be enabled to adduce the testimony of a gentleman of our own

country, who has long distinguished himself by his able advocacy of the cause of industrial education; whose many popular works on rural economy have done much towards the introduction of improved systems of management among our agricultural population; and whose opinion as to the value of any agency of improvement must, therefore, be of great practical importance. "Martin Doyle" thus expresses his opinion of our establishment at Glasnevin:—

"After an interval of several years, I have this day visited the Model Farm, and observed with great satisfaction the obvious improvements which have been made; and I have no doubt that it will occupy a position greatly in advance of many of the leading continental institutions of a similar kind, which have produced most beneficial results in their respective countries.

"It is truly gratifying to see, in this country, an institution so admirably calculated to diffuse through Ireland the benefits of a scientific and practical education.

"Wm. Hickey.

"April 14, 1853."

35. We give in the subjoined lists, Nos. 1 and 2, the names of the Model Agricultural Schools in connexion with our Board, on the 31st December, 1852. They are divided into two classes. The first comprises those schools under our exclusive control, and which are conducted on the plan of which we gave an explanation in our Sixteenth Report. The second consists of those schools towards which we have made building grants, and awarded salaries and books, but which are under the superintendence of local Patrons or Managers. Dr. Kirkpatrick states in his Report, that "the progress of the Agricultural department, during the past year, has been, on the whole, satisfactory and encouraging. On a comparison of the statistical details of the year 1852 with those of 1851, it will be found that they exhibit a favourable result in every particular." The number of day pupils receiving Agricultural instruction in our Model, Ordinary, and Workhouse Agricul-

tural Schools, was in 1851, 1,726, and in 1852, 2,355, being an increase of 629. In the quantity of land brought under cultivation, during the past year, there has been an increase of nearly 195 acres. In 1851, there were 1,086 statute acres, and in 1852, 1,281. In each of the kinds of live stock kept on the farms there has been also a considerable increase.

Workhouse Agricultural Schools.

38. The total number of Workhouse Agricultural Schools, on the 31st of December, 1852, was 23, of which 12 are in Ulster; 7 in Munster; 3 in Leinster; and 1 in Connaught. One was struck off during the year, and the grant withdrawn. There has been an increase, on the whole, of 6 over the year 1851. We have great satisfaction in stating, that since the close of 1852, 20 schools of this class have been added to the list. Dr. Kirkpatrick makes the following observations in his Report, on the increasing progress of Agricultural training amongst the children attending Workhouse Schools to which Agricultural departments are attached.

"Besides the advantages offered by the Commissioners of National Education, one of the chief causes to which the recent gratifying progress of agricultural industrial training in workhouses may be attributed, is the interest evinced in the matter by the Poor Law Commissioners, who caused copies of the last Annual Report to be sent to all their Inspectors, with directions that they should press on the attention of the several Boards of Guardians in their respective districts the views therein put forward as to the efficient training of pauper children in a knowledge of agricultural pursuits. I am happy to say, that this important recognition, by the Poor Law Commissioners, of the value of industrial training for pauper children, on the system approved by, and carried out under the auspices of the Commissioners of National Education, has already given a strong impetus to the progress of this system; as, during no period since the introduction of it into workhouses, have so many applications been made with the desire of participating in its advantages, as since the date at which the Poor Law Commissioners thus notified their wishes in respect to it by the circular which they addressed to their Inspectors, and which is appended to this Report. I have every reason to hope that, during the present year, these wishes will be responded to in every case where the means exist of having them carried into effect."

Glasnevin Industrial School. Instructions in gardening.

39. The allotment system, at the Glasnevin Industrial School, referred to in our last Report, has worked, during the past year, with increased success. The comparative results of the years 1851 and 1852 are shown in Mr. Hawe's Report, published in the Appendix. The balance sheets of the several allotments are also given. In the Piltown Ordinary Agricultural School, the same system of instruction in gardening

has been successfully carried out by Mr. Cunningham, the teacher, to whose Report we refer for details.

Plan adopted by the Lords of Her Majesty's Treasury for the sale of the National School Books to the public.

XIV.—40. We announced in our last Report, that the Lords of her Majesty's Treasury had notified their intention of withdrawing from us the power of supplying the public or poor schools with the National School Books, published under our direction. This arrangement, having been since formally adopted by their Lordships, came into operation on the 4th of July in the present year, from which date we ceased to sell books to the public and to all poor schools, except those in connexion with our Board. Other parties, whether the trade or private individuals, can now procure them through the Stationery Office in Dublin (provided they pay for them in ready money, and order them in quantities of the value of £10 and upwards). They can also be procured in any quantities, and at very low prices, from various booksellers. We have much gratification in stating, that, under the new regulations, our books are sold to the public at much lower prices than before, and that the prices to schools are not increased.

Return furnished to the Earl of Eglinton and Winton, late Lord Lieutenant of Ireland, of the number of children attending each of the National Schools in Ireland.

41. We published in our last Report, in compliance with the request of the Earl of Eglinton, late Lord Lieutenant of Ireland, a Return of the total number of children attending our schools, with a statement of their religious denominations. We procured the required information from the Managers of the National Schools, and we have no reason for supposing that it was in any material point inaccurate. The Returns furnished by them, having been carefully examined and abstracted, we were enabled to state as follows:—that of 491,927 children, there were members of the Established Church, 24,684; Presbyterians, 40,618; other Protestant Dissenters, 1,908; total number of Protestants of all denominations, 67,210; Roman Catholics, 424,717.

Return furnished to the Earl of Eglinton and Winton in detail.

42. We request particular attention to the *details* of the Return, published in the Appendix, from which the foregoing results were obtained, and to the Reports of several of our Inspectors showing the extent of united Education in their respective Districts. They prove that the attendance of children of different religious denominations, at the same schools, is more general than has been generally supposed. The following are the summaries of this Return, arranged in counties and provinces:—

43. We deem it necessary to republish the following statement, contained in our Report for 1851, viz. :—"That of the Managers of the National Schools considerably more than one-third are Protestants; of the schools considerably more than one-fourth part are under Protestant management; of the children on the rolls, on the 31st of March, 1852, nearly one-seventh part were Protestants; of the Teachers trained in our central establishment, one-fifth; and of the applicants for grants to new schools, during 1851, one-fourth were Protestants."

XV.—44. We have lately (namely, on the 8th of July), passed, after very long consideration, two important resolutions, which, although not adopted during the year 1852, we think it right to announce on the present occasion. First, that we have withdrawn from the list of books published by us, a work entitled "Lessons on the Truth of Christianity;" and from the list of books sanctioned, but not published by us, another work, namely, "Introductory Lessons on Christian Evidences." The first was introduced in 1838; the second in 1842. Secondly, that we have amended our Eighth Rule, Section II. Hitherto, it has been thus expressed :—

"8. The Commissioners do not insist on the 'Scripture Lessons,' 'Lessons on the Truth of Christianity,' or book of 'Sacred Poetry,' being read in any of the National Schools, nor do they allow them to be read, during the time of secular or literary instruction, in any school attended by children whose parents or guardians object to their being so read. In such case the Commissioners prohibit the use of them, except at the times of religious instruction, when the persons giving it, may use these books, or not, as they think proper."

As altered, it is as follows :—

"The Commissioners do not insist on the 'Scripture Lessons' or book of 'Sacred Poetry' being read in any of the National Schools, nor do they allow them to be read as part of the ordinary school business (during which all children, of whatever denomination they may be, are required to attend) in any school attended by children whose parents or guardians object to their being read by their children.

"In such cases the Commissioners prohibit the use of these books, except at times set apart for the purpose, either before or after the ordinary school business, and under the following conditions:—

"1st. That no child, whose parent or guardian objects, shall be required, directly or indirectly, to be present at such reading.

"2nd. That in order that no child, whose parent or guardian objects, may be present at the reading of the books above specified, public notification of the time set apart for such

reading shall be inserted in large letters in the time-table of the school—that there shall be a sufficient interval between the conclusion of the ordinary school business and the commencement of such reading; and that the teacher shall immediately, before its commencement, announce distinctly to the pupils that any child whose parent or guardian so desires may then retire.

"3rd. That in every such case there shall be, exclusive of the time set apart for such reading, sufficient time devoted each day to the ordinary school business, in order that those children who do not join in the reading of the books may enjoy ample means of literary instruction in the school-room."

45. We shall not enter into the various reasons which have influenced different members of the Board in coming to the decision we have stated on these two questions.

46. With reference to the withdrawal of the "Lessons on the Truth of Christianity," and the "Introductory Lessons on Christian Evidences," we deem it necessary to state, that these books may still be used (though no longer supplied by us) during the time se apart for *separate* religious instruction.

47. With reference to Rule 8, as now amended, we are to observe, that the "Scripture Lessons," and book of "Sacred Poetry," may, in like manner, be used during the time set apart for *separate* religious instruction, and also during the hours of *combined* instruction (when children of all religious denominations are *required* to attend), unless the use of them be objected to by the parents or guardians of any of the children. In such case the use of these books is prohibited, except under the conditions, and at the time specified, in the amended Rule—namely, before or after the ordinary school business. Under the Rule, as it was previously expressed, the "Scripture Lessons," and book of "Sacred Poetry," when objected to by any of the parents or guardians of the children in attendance, could only be read during the time set apart for separate religious instruction.

XVI.—48. We have this day received official information, that Your Excellency has been pleased to appoint the Right Rev. William, Lord Bishop of Limerick, the Right Hon. John Hatchell, and Mountifort Longfield, Esq., Q.C., to be Commissioners of National Education in Ireland, in the room of three members, whose retirement from our Board we most deeply deplore, viz., His Grace the Archbishop of Dublin, the Right Hon. Baron Greene, and the Right Hon. Francis Blackburne.

XVII.—49. The account of Receipts and Expenditure has been made for the same period as the school statistics, namely, the year ending 31st of December, 1852. Financial Account.

We submit this as our Report for the past year to your Excellency, and, in testimony thereof, have caused our corporate Seal to be hereunto affixed, this Twelfth day of August, One Thousand Eight Hundred and Fifty-three.

(SEAL.)

Copy of a Letter from the Chief Secretary for Ireland, to His Grace the Duke of Leinster, on the formation of a Board of Commissioners for Education in Ireland.

Irish Office, London, October, 1831.

My Lord,—His Majesty's Government having come to the determination of empowering the Lord Lieutenant to constitute a Board for the superintendence of a system of National Education in Ireland, and Parliament having so far sanctioned the arrangement, as to appropriate a sum of money in the present year, as an experiment of the probable success of the proposed system, I am directed by His Excellency to acquaint your Grace, that it is his intention, with your consent, to constitute you the President of the new Board. And I have it further in command to lay before your Grace the motives of the Government in constituting this Board, the powers which it is intended to confer upon it, and the objects which it is expected that it will bear in view, and carry into effect.

The Commissioners, in 1812, recommended the appointment of a Board of this description, to superintend a system of education from which should be banished even the suspicion of proselytism, and which, admitting children of all religious persuasions, should not interfere with the peculiar tenets of any. The Government of the day imagined that they had found a superintending body, acting upon a system such as was recommended, and intrusted the distribution of the National Grants to the care of the Kildare-street Society. His Majesty's present Government are of opinion that no private society, deriving a part, however small, of their annual income from private sources, and only made the channel of the munificence of the Legislature, without being subject to any direct responsibility, could adequately and satisfactorily accomplish the end proposed; and while they do full justice to the liberal views with which that Society was originally instituted, they cannot but be sensible that one of its leading principles was calculated to defeat its avowed objects, as experience has subsequently proved that it has. The determination to enforce, in all their schools, the reading of the Holy Scriptures without note or comment, was undoubtedly taken with the purest motives; with the wish at once to connect religious with moral and literary education, and, at the same time, not to run the risk of wounding the peculiar feelings of any sect, by catechetical instruction, or comments

which might tend to subjects of polemical controversy. But it seems to have been overlooked, that the principles of the Roman Catholic Church (to which, in any system intended for general diffusion throughout Ireland, the bulk of the pupils must necessarily belong) were totally at variance with this principle; and that the indiscriminate reading of the Holy Scriptures without note or comment, by children, must be peculiarly obnoxious to a Church which denies, even to adults, the right of unaided private interpretation of the Sacred Volume with respect to articles of religious belief.

Shortly after its institution, although the Society prospered and extended its operations under the fostering care of the Legislature, this vital defect began to be noticed, and the Roman Catholic Clergy began to exert themselves with energy and success against a system to which they were on principle opposed, and which they feared might lead in its results to proselytism, even although no such object were contemplated by its promoters. When this opposition arose, founded on such grounds, it soon became manifest that the system could not become one of National Education.

The Commissioners of Education in 1824–'25, sensible of the defects of the system, and of the ground, as well as the strength of the objection taken, recommended the appointment of two Teachers in every school, one Protestant and the other Roman Catholic, to superintend separately the religious education of the children; and they hoped to have been able to agree upon a selection from the Scriptures which might have been generally acquiesced in by both persuasions. But it was soon found that these schemes were impracticable; and, in 1828, a Committee of the House of Commons, to which were referred the various Reports of the Commissioners of Education, recommended a system to be adopted which should afford, if possible, a combined literary, and a separate religious education, and should be capable of being so far adapted to the views of the religious persuasions which prevail in Ireland, as to render it, in truth, a system of National Education for the poorer classes of the community.

For the success of the undertaking much must depend upon the character of the individuals who compose the Board; and upon the security thereby afforded to the country, that while the interests of religion are not overlooked, the most scrupulous care should be taken not to interfere with the peculiar tenets of any description of Christian pupils.

To attain the first object, it appears essential that the Board should be composed of men of high personal character, including individuals of exalted station in the Church; to attain the latter, that it should consist of persons professing different religious opinions.

It is the intention of the Government that the Board should exercise a complete control over the various schools

which may be erected under its auspices, or which, having been already established, may hereafter place themselves under its management, and submit to its regulations. Subject to these, applications for aid will be admissible from Christians of all denominations; but as one of the main objects must be to unite in one system children of different creeds, and as much must depend upon the co-operation of the resident Clergy, the Board will probably look with peculiar favour upon applications proceeding either from—

1st. The Protestant and Roman Catholic Clergy of the Parish; or

2nd. One of the Clergymen, and a certain number of Parishioners professing the opposite creed; or

3rd. Parishioners of both denominations.

Where the application proceeds exclusively from Protestants, or exclusively from Roman Catholics, it will be proper for the Board to make inquiry as to the circumstances which lead to the absence of any names of the persuasion which does not appear.

The Board will note all applications for aid, whether granted or refused, with the grounds of the decision, and annually submit to Parliament a Report of their proceedings.

They will invariably require, as a condition not to be departed from, that local funds shall be raised, upon which any aid from the public will be dependent.

They will refuse all applications in which the following objects are not locally provided for:—

1st. A fund sufficient for the annual repairs of the school-house and furniture.

2nd. A permanent salary for the Master, not less than pounds.

3rd. A sum sufficient to purchase books and school requisites at half-price.

4th. Where aid is sought from the Commissioners for building a school-house, it is required that at least one-third of the estimated expense be subscribed, a site for building, to be approved of by the Commissioners, be granted for the purpose, and that the school-house, when finished, be vested in trustees, to be also approved of by them.

They will require that the schools be kept open for a certain number of hours, on four or five days of the week, at the discretion of the Commissioners, for moral and literary education only; and that the remaining one or two days in the week be set apart for giving, separately, such religious education to the children, as may be approved of by the Clergy of their respective persuasions.

They will also permit and encourage the Clergy to give religious instruction to the children of their respective persuasions, either before or after the ordinary school hours, on the other days of the week.

They will exercise the most entire control over all books to be used in the schools, whether in the combined moral and literary, or separate religious instruction; none to be employed in the first, except under the sanction of the Board, nor in the latter, but with the approbation of those members of the Board who are of the same religious persuasion with those for whose use they are intended. Although it is not designed to exclude from the list of books for the combined instruction, such portions of Sacred History, or of religious or moral teaching, as may be approved of by the Board, it is to be understood that this is by no means intended to convey a perfect and sufficient religious education, or to supersede the necessity of separate religious instruction on the day set apart for that purpose.

They will require that a Register shall be kept in the schools, in which shall be entered the attendance or non-attendance of each child on Divine Worship on Sundays.

They will, at various times, either by themselves or by their Inspectors, visit and examine into the state of each school, and report their observations to the Board.

They will allow to the individuals or bodies applying for aid, the appointment of their own Teacher, subject to the following restrictions and regulations.

1st. He (or she) shall be liable to be fined, suspended, or removed altogether, by the authority of the Commissioners, who shall, however, record their reasons.

2nd. He shall have received previous instruction in a Model School in Dublin, to be sanctioned by the Board.

N.B.—It is not intended that this regulation should apply to prevent the admission of masters or mistresses of schools already established, who may be approved of by the Commissioners.

3rd. He shall have received testimonials of good conduct, and of general fitness for the situation, from the Board.

The Board will be intrusted with the absolute control over the funds which may be annually voted by Parliament, which they shall apply to the following purposes:—

1st. Granting aid for the erection of schools, subject to the conditions hereinbefore specified.

2nd. Paying Inspectors for visiting and reporting upon schools.

3rd. Gratuities to Teachers of schools conducted under the Rules laid down, not exceeding   pounds each.

4th. Establishing and maintaining a Model School in Dublin, and training Teachers for country schools.

5th. Editing and printing such books of moral and literary education as may be approved of for the use of the schools, and supplying them and school necessaries, at not lower than half-price.

6th. Defraying all necessary contingent expenses of the Board.

I have thus stated the objects which His Majesty's Government have in view, and the principal regulations by which they think those objects may be most effectually promoted. And I am directed by the Lord Lieutenant to express His Excellency's earnest wish that the one and the other may be found such as to procure for the Board the sanction of your Grace's name, and the benefit of your Grace's attendance.

A full power will of course be given to the Board, to make such regulations upon matters of detail, not inconsistent with the spirit of these Instructions, as they may judge best qualified to carry into effect the intentions of the Government and of the Legislature. Parliament has already placed at His Excellency's disposal a sum which may be available even in the course of the present year; and as soon as the Board can be formed, it will be highly desirable that no time should be lost, with a view to the estimates of the ensuing year, in enabling such schools, already established, as are willing to subscribe to the conditions imposed, to put in their claims for protection and assistance; and in receiving applications from parties desirous to avail themselves of the munificence of the Legislature in founding new schools under your regulations.

I have the honour to be, &c.,

(Signed) E. G. Stanley.

The following Document, explanatory of some of the foregoing Conditions, which have been misunderstood, having been drawn up by the Commissioners, as containing their views of them, has received the approbation and sanction of His Majesty's Government.

As some parts of the plan of Education committed to the Commissioners, to be by them carried into effect, have, as it appears, been misunderstood, the Commissioners beg to submit to Government, the sense in which they have understood and acted upon the instructions given in the letter of the Chief Secretary for Ireland, that the Government may confirm them in their mode of procedure where they are right, and correct them where they are wrong.

I. In giving a control to individual members of the Board, over books to be used in the particular religious instruction of different denominations of pupils, the Board do not understand that it was the intention of His Majesty's Government either to claim for themselves, or to vest in the Commissioners, any control over the use of the Sacred

Scriptures, or over the standards of the Established Churches of Ireland—or of Scotland—or of the Roman Catholic Church, but only over books composed by private authors; and that the control over these is required merely for the purpose of checking the introduction of books of injurious tendency.

II. The Board do not understand that it is imperative upon them to edit all books used in the schools receiving grants from them; but that they are at liberty to sanction such books as may previously be in use in schools, in behalf of which applications are made; or such as may be preferred by the local Patrons and Conductors of schools, provided that they find nothing objectionable in them. Under this view of the duty assigned to them, they require a list of the books used in the schools which they are requested to aid, and have already frequently sanctioned the school-books issued by the Kildare-place Society—and also, after certain alterations, the school-books issued by the Catholic Book Society. The Board wish to remark, that they have never conceived it would be expedient to render the use of any particular book or books imperative.

III. The Board understand that the control over Teachers of schools is vested primarily in their local Patrons and Conductors; and that the power required by the Government to be conceded to the Board, of fining and dismissing Teachers, is to be exercised only in case of such local Patrons and Conductors, after receiving grants, seeking to protect Teachers in violating the rules of the Board; or retaining Teachers found, on trial, to be incompetent.

IV. The Board understand that they are to require a permanent submission to its regulations, only in those cases in which grants have been made towards the erection of school-houses, to be vested in trustees, according to the directions of Government; and that in schools receiving occasional or annual grants, such as salaries for the Teachers, &c., they are to require submission to their regulations only during the period for which grants are made.

V. By encouraging the Pastors of different denominations to give religious instruction to the children of their respective flocks, out of school hours, the Board understand, merely affording to such Pastors facility of access to the pupils at the time specified, and not employing or remunerating them. And they understand that the parents and guardians of the children are to determine to what denomination they respectively belong—the Board taking no cognizance of the matter.

VI. The Board understand that the times for religious instruction are to be determined by the local Patrons and Conductors of schools; the power vested in the Board on that subject being merely to see that, at least, one week-day in the week is set apart for that purpose; they also

understand, that the religious instruction given may, or may not, be in the school-room; the choice of the place being left to the Pastors of the children, but that liberty is to be secured to them to assemble the children of their respective flocks in the school-room, if they see fit.

VII. The Board understand that they are not, in ordinary cases, to exercise control over the use of the school-rooms on Sundays, that control being left to the local Conductors of the school; but that if any use be made of them, tending to contention and well-founded complaints between adverse parties, it is competent for the Board to interfere for the purpose of remedying the evil.

The Board beg leave to add, that they do not regard these observations as altering or modifying, in any degree, the original instructions communicated to them in the Chief Secretary's Letter, of October, 1831; they offer them as containing views which they have always entertained of their instructions, and upon which they have uniformly acted since the commencement of their labours.

By desire of the Commissioners,

THOMAS F. KELLY, *Secretary.*

ORIGINAL DRAFT of LETTER of the RIGHT HON. E. G. STANLEY, Chief Secretary to his Excellency the Lord Lieutenant, addressed to his Grace the DUKE of LEINSTER.

Irish Office, London, October, 1831.

MY LORD,—His Majesty's Government having come to the determination of empowering the Lord Lieutenant to constitute a Board for the superintendence of a system of National Education in Ireland, and Parliament having so far sanctioned the arrangement, as to appropriate a sum of money in the present year, as an experiment of the probable success of the proposed system, I am directed by his Excellency to acquaint your Grace, that it is his intention, with your consent, to constitute you the President of the new Board. And I have it further in command to lay before your Grace the motives of the Government in constituting this Board, the powers which it is intended to confer upon it, and the objects which it is expected that it will bear in view, and carry into effect.

The Commissioners, in 1812, recommended the appointment of a Board of this description, to superintend a system of education from which should be banished even the suspicion of proselytism, and which, admitting children of all religious persuasions, should not interfere with the peculiar

tenets of any. The Government of the day imagined that they had found a superintending body, acting upon a system such as was recommended, and intrusted the distribution of the National Grants to the care of the Kildare-street Society. His Majesty's present Government are of opinion, that no private society, deriving a part, however small, of their annual income from private sources, and only made the channel of the munificence of the Legislature, without being subject to any direct responsibility, could adequately and satisfactorily accomplish the end proposed; and while they do full justice to the liberal views with which that Society was originally instituted, as well as to the fairness with which they have, in most instances, endeavoured to carry their views into effect, they cannot but be sensible that one of the leading principles of that Society was calculated to defeat its avowed objects, as experience has subsequently proved that it has. The determination to enforce in all their schools the reading of the Holy Scriptures without note or comment, was undoubtedly taken with the purest motives; with the wish at once to connect religious with moral and literary education, and, at the same time, not to run the risk of wounding the peculiar feelings of any sect, by catechetical instruction, or comments which might tend to subjects of polemical controversy. But it seems to have been overlooked, that the principles of the Roman Catholic Church (to which, in any system intended for general diffusion throughout Ireland, the bulk of the pupils must necessarily belong) were totally at variance with this principle; and that the reading of the Holy Scriptures without note or comment, by children, must be peculiarly obnoxious to a Church which denies, even to adults, the right of unaided private interpretation of the Sacred Volume in articles of religious belief.

Shortly after its institution, although the Society prospered and extended its operations under the fostering care of the Legislature, this vital defect began to be noticed, and the Roman Catholic Clergy began to exert themselves with energy and success, against a system to which they were in principle opposed, and which they feared might lead in its results to proselytism, even although no such object were contemplated by its promoters. When this opposition arose, founded on such grounds, it soon became manifest that the system could not become one of National Education.

The Commissioners of Education, in 1824–'25, sensible of the defects of the system, and of the ground, as well as the strength of the objection taken, recommended the appointment of two Teachers in every school, one Protestant and the other Roman Catholic, to superintend separately the religious education of the children; and they hoped to have been able to agree upon a selection from the Scriptures which might have been generally acquiesced in by both persuasions. But it was soon found that these schemes

were impracticable; and in 1828, a Committee of the House of Commons, to which were referred the various Reports of the Commissioners of Education, recommended a system to be adopted which should afford, if possible, a combined literary, and a separate religious education, and should be capable of being so far adapted to the views of the religious persuasions which divide Ireland, as to render it, in truth, a system of National Education for the lower classes of the community.

For the success of the undertaking, much must depend upon the character of the individuals who compose the Board; and upon the security thereby afforded to the country, that while the interests of religion are not overlooked, the most scrupulous care should be taken not to interfere with the peculiar tenets of any description of Christian pupils.

To attain the first object, it appears essential that a portion of the Board should be composed of men of high personal character, and of exalted station in the Church; for the latter, that it should consist in part of persons professing different opinions.

It is the intention of the Government, that the Board should exercise a complete control over the various schools which may be erected under its auspices, or which, having been already established, may hereafter place themselves under its management, and submit to its regulations. Subject to these, applications for aid will be admissible from Christians of all denominations; but as one of the main objects must be to unite in one system children of different creeds, and as much must depend upon the co-operation of the resident Clergy, the Board will probably look with peculiar favour upon applications proceeding either from—

1st. The Protestant and Roman Catholic Clergy of the Parish; or,

2nd. One of the Clergymen, and a certain number of Parishioners, professing the opposite creed; or,

3rd. Parishioners of both denominations.

Where the application proceeds exclusively from Protestants, or exclusively from Roman Catholics, it will be proper for the Board to make inquiry as to the circumstances which lead to the absence of any names of the persuasion which does not appear.

The Board will note all applications for aid, whether granted or refused, with the grounds of the decision, and annually submit to Parliament a Report of their proceedings.

They will invariably require, as a condition not to be departed from, that local funds shall be raised, upon which any aid from the public will be dependent.

They will refuse all applications in which the following objects are not locally provided for:—

1st. A fund sufficient for the annual repairs of the school-house and furniture.

2nd. A permanent salary for the Master, not less than pounds.

3rd. A sum sufficient to purchase books and school requisites at half price, and books of separate religious instruction at prime cost.

4th. Where aid is required from the Commissioners for building a school-house, it is required that at least one-third of the estimated expense be subscribed, a site for building, to be approved of by the Commissioners, be granted to them, and the school-house, when finished, to be vested in them.

They will require that the schools be kept open for a certain number of hours, on four or five days of the week, at the discretion of the Commissioners, for moral and literary education only; and that the remaining one or two days in the week be set apart for giving, separately, such religious education to the children as may be approved of by the Clergy of their respective persuasions.

They will also permit and encourage the Clergy to give religious instruction to the children of their respective persuasions, either before or after the ordinary school hours on the other days of the week.

They will exercise the most entire control over all books to be used in the schools, whether in the combined literary, or separate religious instruction; none to be employed in the first, except under the sanction of the Board, nor in the latter, but with the approbation of the members of the Board of the persuasion of those for whom they are intended.

They will require that a Register shall be kept in the schools, in which shall be entered the attendance or non-attendance of each child on Divine Worship on Sundays.

They will, at various times, either by themselves, or by their Inspectors, visit and examine into the state of each school, and report their observations to the Board.

They will allow to the individuals or bodies applying for aid, the appointment of their own Teacher, subject to the following restrictions and Regulations:

1st. He (or she) shall be liable to be fined, suspended, or removed altogether, by the authority of the Commissioners, who shall, however, record their reasons.

2nd. He shall have received previous instruction in a Model School, to be established in Dublin.

N.B.—It is not intended that this regulation should apply to prevent the admission of masters or mistresses of schools already established, who may be approved of by the Commissioners, nor of such as the Board may think fit to appoint, before the proposed Model School may come into full operation.

3rd. He shall have received testimonials of good conduct and of general fitness for the situation, from the Board, or the persons employed by them to conduct the Model School.

The Board will be intrusted with the absolute control over the funds which may be annually voted by Parliament, which they shall apply to the following purposes:—

1st. Granting aid for the erection of schools, subject to the conditions hereinbefore specified.

2nd. Paying Inspectors for visiting and reporting upon schools.

3rd. Gratuities to Teachers of schools conducted under the Rules laid down, not exceeding pounds each.

4th. Establishing and maintaining a Model School in Dublin, and training Teachers for country schools.

5th. Editing and printing such books of moral and literary education as may be approved of for the use of the schools, and supplying them and school necessaries, at not lower than half-price.

I have thus stated the objects which His Majesty's Government have in view, and the principal regulations by which they think those objects may be most effectually promoted; and I am directed by the Lord Lieutenant to express His Excellency's earnest wish that the one and the other may be found such as to procure for the Board the sanction of your Grace's name, and the benefit of your Grace's attendance.

A full power will, of course, be given to the Board to make such regulations upon matters of detail, not inconsistent with the spirit of these Instructions, as they may judge best qualified to carry into effect the intentions of the Government and of the Legislature. Parliament has already placed at his Excellency's disposal a sum which may be available even in the course of the present year; and as soon as the Board can be formed, it will be highly desirable that no time should be lost, with a view to the estimates of the ensuing year, in enabling such schools, already established, as are willing to subscribe to the conditions imposed, to put in their claims for protection and assistance; and in receiving applications from parties desirous to avail themselves of the munificence of the Legislature, in founding new schools under your regulations.

I have the honour to be, my Lord,

Your Grace's most obedient servant,

E. G. Stanley.

To His Grace the Duke of Leinster,
&c. &c.

APPENDIX A.

I.—Rules and Regulations of the Commissioners of National Education, and Directions for making Application for Aid towards the Building of School-houses, or for the Support of Schools.

I. Rules and Regulations of Commissioners.

1.—The Commissioners grant aid towards the Building and Support of Schools of two Classes, Elementary Schools and Schools of Industry ; but they can grant aid only to a limited number of the latter, and these must be at certain distances from each other. It is an indispensable condition for aid towards a School of Industry, that a Work-room shall be annexed to it, if it be situated in a City or Town ; and if it be a Country or Rural School, that a certain quantity of land shall be provided for Garden culture.

It is, however, for the Patrons of each National School to determine whether they will make Agricultural or other industrial instruction part of the Education which it affords. It is for the Commissioners to do what they can in aid of their efforts, by having the Teachers taught the principles and practice of improved Agriculture during their Training Course, and by receiving Agricultural Pupils at the Model Farm Glasnevin. The Commissioners consider Schools for Females as of the class of Elementary Schools ; but they require that instruction be there given in Sewing, Knitting, and other works suited to Females.

II.—*As to Government of Schools with respect to Attendance and Religious Instruction.*

1. The ordinary School business, during which all children, of whatever denomination they may be, are required to attend, is to embrace a specified number of hours each day.

2. Opportunities are to be afforded to the Children of each School for receiving such religious instruction as their parents or guardians approve of.

3. The Patrons of the several Schools have the right of appointing such religious instruction as they may think proper to be given therein, provided that each School be open to Children of all communions ; that due regard be had to parental right and authority ; that, accordingly, no child be *compelled* to receive, or to be present at, any religious instruction to which his parents or guardians object ; and that the time for giving it be so fixed, that no child shall be thereby, in effect, excluded, directly or indirectly, from the other advantages which the School affords. Subject to this, religious instruction may be given either during the fixed School-hours or otherwise.

The following explanation of the preceding Rule, and observations of the Commissioners, accompanied by the *new*

I. Rules and Regulations of Commissioners.

Order issued by them in 1850, in reference to the 9th paragraph of section 2, are taken from their Sixteenth Report.

"We have recently issued an important Order, on the subject of religious instruction, to which we beg to draw your Excellency's attention. In our Report for the year 1847, we stated that our Secretaries having informed us that they had been frequently consulted, both personally and by letter, as to the true meaning of the following portion of section 2, paragraph 3, of the Rules of the Board with reference to religious instruction—'That due regard be had to parental right and authority; that, accordingly, no child be compelled to receive, or be present at, any religious instruction to which his parents or guardians object:' and that they deemed it desirable that we should supply them with an authoritative answer to such questions, we directed them, by a minute bearing date 18th November, 1847, to give the following explanation in reply to all such inquiries in future:—

"'First—That the true interpretion of the words in question clearly is, that no child be compelled to receive, or to be present at, any religious instruction to which his parents or guardians object; and that this rule (in conjunction with the notification in the School-room of the arrangement for giving religious instruction as required by Rule 9, section 2) has hitherto been found amply sufficient for the full enforcement of parental authority.

"'Secondly—That though all that is required by this rule (section 2, paragraph 3) is, that the Patron should engage not to compel any child to be present at such religious instruction; yet, should the patron use any means, either directly or indirectly, to induce any child to attend such religious instruction, contrary to the desire of his parents or guardians, the Commissioners would consider such conduct inconsistent with the whole spirit of their system.'"

It was with a view to guard against the possibility of such a case arising, that the Commissioners gave the following important explanation of their sentiments in their Eleventh Report, for the year 1844, dated the 24th day of April, 1845:—

"It would be found impossible to lay down in detail any set of rules so accommodated to all the varying circumstances of every locality, and so guarded against all possible mistakes and misrepresentations, as to be secure from being violated in spirit, without any tangible infringement of the letter of them. For example, under our present rules, the Patron of a National School may give religious instruction during even the fixed School-hours. A Patron, Protestant or Roman Catholic, might possibly, availing himself of the letter of this rule, make so unjust a use of this privilege as to drive from the School all children of a persuasion different from his own, or induce them, if they remained, to share in the religious instruction to which they and their parents were conscientiously opposed. In such a case we should immediately inter-

pose, and cause the Patron to abandon a course so inconsistent with the whole spirit of our system; or, in case of his refusal, we should strike the School off our roll.

"The Order which we have deemed it right to make is as follows :—'That the following arrangement be adopted for carrying out more effectually the Rule as to the notification of the time for giving religious instructions, as set forth in the 9th paragraph of section 2 of the Rules and Regulations of the Commissioners :—

"'First—That the public notification of the time for religious instruction shall be inserted in large letters in the "Time Table" supplied by the Commissioners to all National Schools; and the Commissioners strongly recommend that, as far as may be practicable, the general nature of such religious instruction shall be also stated on the "Time Table."

"'Secondly—That the "Time Table" shall be kept constantly hung up in a conspicuous place in the School-room.

"'Thirdly—That, in order "that no child be compelled to receive, or to be present at, any religious instruction to which his parents or guardians object," the teacher shall immediately before the commencement of religious instruction, announce distinctly to the pupils, that the hour for religious instruction has arrived, and shall, at the same time, put and keep up, during the period allotted to such religious instruction, and within the view of all the pupils, a notification thereof, containing the words "Religious Instruction," printed in large characters, on a form to be also supplied by the Commissioners.

"'Fourthly—That, when the secular instruction shall precede the religious instruction, in any National School, there shall be a sufficient interval between the announcement and the commencement of the religious instruction, and, whether the religious or the secular instruction shall have priority in any National School, the books used for the instruction first in order, shall be carefully laid aside at its termination, in the press or other place appropriated for keeping the school-books.'

"Although, so far as we are aware, no case has ever yet occurred in which proselytism has taken place, either on the Roman Catholic or Protestant side, in any National School, yet fears have been entertained that such attempts might be made during the time set apart for religious instruction. The arrangement we have now adopted will, we trust, go far to remove such fears, and cannot be objected to by any one who places his school under us, with the honest purpose of acting upon our leading principle. In founding our system, Lord Stanley announced, 'that even the suspicion of proselytism should be banished from it'—'that security would be afforded by it'—'that the most scrupulous care should be taken not to interfere with the peculiar tenets of any description of Christian pupils.' His language in this respect is in exact accordance with that employed in the Fourteenth Report of the 'Commissioners for inquiry into the state of all Schools

on public or charitable foundations in Ireland.' In that Report, published in 1812, and signed by the Archbishops of Armagh and Cashel, by the Bishop of Killala, and by Provost Elrington, the Commissioners declare their hope that the scheme of National Education proposed by them will be cordially accepted by the people of Ireland. And they add these memorable words: 'That such will be its acceptance we shall indulge the more confident expectation, if all interference with the particular religious tenets of those who are to receive that instruction shall, in the first instance, be unequivocally disclaimed, and effectually guarded against. We conceive this to be of essential importance in any new establishments for the education of the lower classes in Ireland: and we venture to express our unanimous opinion that no such plan, however wisely and unexceptionally contrived in other respects, can be carried into effectual execution in this country, unless it be explicitly avowed, and clearly understood, as its leading principle, that no attempt shall be made to influence or disturb the peculiar religious tenets of any sect or description of Christians.' No person who does not from his heart adopt the sentiments here expressed by the Commissioners, and which are embodied in Lord Stanley's Letter, can conscientiously avail himself of our grants; and no one who does adopt those sentiments can object to the Order which we have issued on this occasion."

4. In Schools, towards the building of which the Commissioners have contributed, and which are, therefore, VESTED in Trustees, for the purposes of National Education, or, which are vested in the Commissioners in their corporate capacity, such Pastors or other Persons as shall be approved of by the parents or guardians of the Children respectively, shall have access to them *in the School-room*, for the purpose of giving them religious instruction there, at convenient times to be appointed for that purpose, whether those pastors or persons shall have signed the original application or otherwise.

5. In Schools NOT VESTED, but which receive aid only by way of Salary and Books, it is for the Patrons to determine whether religious instruction shall be given *in the School-room* or not; but if they do not allow it in the School-room, the Children whose parents or guardians so desire, must be allowed to absent themselves from the School, at reasonable times, for the purpose of receiving such instruction ELSEWHERE.

6. The reading of the Scriptures, either in the Protestant Authorized, or Douay Version, as well as the teaching of Catechisms, comes within the rule as to religious instruction.

7. The rule as to religious instruction applies to Public Prayer and to all other religious exercises.

8. The Commissioners do not insist on the "Scripture Lessons," "Lessons on the Truth of Christianity," or book of "Sacred Poetry," being read in any of the National Schools, nor do they allow them to be read during the time of secular or literary instruction, in any School attended by Children

Appendix A.

I. Rules and Regulations of Commissioners.

whose parents or guardians object to their being so read. In such case the Commissioners prohibit the use of them, except at the times of religious instruction, when the persons giving it may use these books, or not, as they think proper.

9. Whatever arrangement is made in any School for giving religious instruction, must be *publicly notified* in the School-room, in order that those Children, and those only, may be present whose parents or guardians allow them.*

10. If any other books than the Holy Scriptures, or the *standard* books of the Church to which the Children using them belong, are employed in communicating religious instruction, the title of each is to be made known to the Commissioners.

11. The use of the books published by the Commissioners is not compulsory; but the titles of all other books which the Conductors of Schools intend for the ordinary School business, are to be reported to the Commissioners; and none are to be used to which they object; but they prohibit such only as may appear to them to contain matter objectionable in itself, or objectionable for *common* instruction, as peculiarly belonging to some particular religious denomination.

12. A Registry is to be kept in each School of the daily attendance of the Scholars, and the average attendance, according to the Form furnished by the Commissioners.

III.—*Miscellaneous.*

1. It is the earnest wish of Her Majesty's Government, and of the Commissioners, that the Clergy and Laity of the different religious denominations in the country should co-operate with one another in conducting National Schools.

2. When any School is received by the Commissioners into connexion with them, the inscription, "National School," *and no other*, shall be put up conspicuously on the School-house; and when a School-house is built partly by aid from them, a stone is to be introduced into the wall having that inscription cut upon it.

3. The Commissioners require that no use shall be made of the School-rooms for any purpose tending to contention, such as the holding of political meetings in them, or bringing into them political petitions or documents of any kind for signature.

4. The Commissioners require that the National School-rooms shall not be converted into places of public worship.

5. The Commissioners require the School-rooms to be used *exclusively for the purposes of Education;* and any breach of this Rule will be held to be a violation of the principles of the National Education System.

6. The Commissioners require that the principles of the

APPENDIX A.

I. Rules and Regulations of Commissioners.

following Lesson, or of a Lesson of a similar import, be strictly inculcated in all Schools admitted into connexion with the Board, and that a copy of the Lesson itself be hung up in each School.

> Christians should endeavour, as the Apostle Paul commands them, to "live peaceably with all men" (Rom. ch. xii. v. 17), even with those of a different religious persuasion.
>
> Our Saviour, Christ, commanded his disciples to "love one another." He taught them to love even their enemies, to bless those that cursed them, and to pray for those who persecuted them. He himself prayed for his murderers.
>
> Many men hold erroneous doctrines, but we ought not to hate or persecute them. We ought to seek for the truth, and to hold fast what we are convinced is the truth; but not to treat harshly those who are in error. Jesus Christ did not intend his religion to be forced on men by violent means. He would not allow his disciples to fight for him.
>
> If any persons treat us unkindly, we must not do the same to them; for Christ and his apostles have taught us not to return evil for evil. If we would obey Christ, we must do to others, not as they do to us, but as we would wish them to do to us.
>
> Quarrelling with our neighbours and abusing them, is not the way to convince them that we are in the right, and they in the wrong. It is more likely to convince them that we have not a Christian spirit. We ought to show ourselves followers of Christ, who, "when he was reviled, reviled not again" (1 Pet. ch. ii. v. 23), by behaving gently and kindly to every one.

7. The Commissioners regard the attendance of any of their Teachers at meetings held for *political purposes*, or their taking part in elections for Members of Parliament, except by voting, as incompatible with the performance of their duties, and as a violation of rule which will render them liable to dismissal.

8. Should the Commissioners consider any Teacher employed in a School under the Board unfit for his office, or otherwise objectionable, they require that he be dismissed and another provided. Teachers are also liable to be fined or suspended, at all times, when the Commissioners shall deem it necessary, on sufficient cause being shown.

9. The Commissioners by themselves, or their Officers, are to be allowed to visit and examine the Schools whenever they think fit. Those who visit on the part of the Commissioners are furnished with credentials under their Seal.

IV.—*Inspection of Schools.*

1. ADMISSION OF VISITORS.

1. The public generally must have free access to every National School during the hours devoted to secular instruction,—not to take part in the ordinary business, nor to interrupt it, but, as Visitors, to observe how it is conducted.

2. Every Teacher of a National School is to receive courteously Visitors of all denominations, to afford them free access to the School-room, and full liberty to observe what books are

in the hands of the Children, or upon the desks; what tablets are hung up on the walls, and what is the method of teaching; but they are by no means required to permit any person to interrupt the business of the School, by asking questions of Children, examining classes, calling for papers of any kind, or in any other way diverting the attention of either Teachers or Scholars from their usual business.

3. Should any Visitors wish for information which they cannot obtain by such an inspection, it is the duty of the Teachers to refer them to the Patrons or Managers of the School for it.

4. Every Teacher is required to have his Visitors' or Daily Report Book lying upon his desk, that Visitors may, if they choose, enter remarks in it. Such remarks as may be made, the Teachers are by no means to alter or erase; and the Inspector of the district is required to transmit to the Commissioners copies of such remarks as he may deem of sufficient importance to be made known to them.

5. As the religious instruction of the Children is under the control of the Clergyman or Lay person, communicating it with the approbation of their parents, the Commissioners can give no liberty to any other Visitor, whether Clergyman or Layman, to interfere therewith.

2. INSPECTION BY THE COMMISSIONERS OR THEIR OFFICERS.

1. The Commissioners do not take the control or regulation of any School, except their own Model Schools, directly into their own hands, but leave all Schools aided by them under the authority of the Local Conductors. The *Inspectors,* therefore, are not to give direct orders, as on the part of the Board, respecting any necessary regulations, but to point out such regulations to the conductors of the School, that *they* may give the requisite orders.

2. The Commissioners require that every National School be inspected by the *Inspector of the District,* at least three times in each year.

3. The *District Inspector* on each inspection is to communicate with the Patron or Correspondent, for the purpose of affording information concerning the general state of the School, and pointing out such violations of rule, or defects, if any, as he may have observed; and he is to make such suggestions as he may deem necessary.

4. He is to examine the Visitors' Book, or Daily Report Book, and to transmit to the Commissioners copies of any observations made therein which he may consider to be of importance.

5. He is not to make any observation in the Book except the date of his visit, the time occupied in the inspection of the School, showing the precise time at which it commenced, and the precise time at which it terminated; and also the number of Scholars present.

6. Upon ordinary occasions, he is not to give any intima-

tion of his intended visit; but during the middle term of the year, from 1st May to the 31st August, when the inspection is to be public, he is to make such previous arrangements with the Local Managers, as will facilitate the attendance of the parents of the Children, and other persons interested in the welfare of the Schools.

7. He is to report to the Commissioners the result of each visit, and to use every means to obtain accurate information as to the discipline, management, and methods of instruction pursued in the School.

8. He is to examine all the classes in succession, in their different branches of study, so as to enable him to ascertain the degree and efficiency of the instruction imparted.

9. He is to examine the Class Rolls, Register, and Daily Report Book; and to report with accuracy what is the actual number of Children receiving instruction at the School, and what is the daily average attendance.

10. He is to receive a monthly Report from the Teacher of each School, and also to make one quarterly himself to the Commissioners, in addition to his ordinary Report upon the School after each visit.

11. He is also to supply the Commissioners with such local information as they may from time to time require from him, and to act as their agent in all matters in which they may employ him; but he is not invested with authority to decide upon any question affecting a National School, or the general business of the Commissioners, without their direction.

12. When applications for aid are referred to the District Inspector, he is to communicate with the applicant so as to insure an interview, and also with the Clergymen of the different denominations, in the neighbourhood, with the view of ascertaining their sentiments on the case, and whether they have any, and what, objections thereto. He is also to communicate personally, if necessary, with any other individuals in the neighbourhood.

13. The District Inspector is to avoid all discussions of a religious or political nature; he is to exhibit a courteous and conciliatory demeanour towards all persons with whom he is to communicate, and to pursue such a line of conduct as will tend to uphold the just influence and authority both of Managers and Teachers.

V.—*As to Appointment, Salaries, Conduct of Teachers, &c.*

1. GENERAL RULES AS TO APPOINTMENT AND CLASSIFICATION OF TEACHERS.

1. The appointment of Teachers rests with the Local Patrons and Committees of Schools, but the Commissioners are to be satisfied with the fitness of each, both as to character and general qualification; and the Local Patrons have the power of removing the Teachers of their own authority.

APPENDIX A.

I. Rules and Regulations of Commissioners.

The Teacher should be a person of Christian sentiment, of calm temper, and discretion; he should be imbued with a spirit of peace, of obedience to the law, and of loyalty to his Sovereign; he should not only possess the art of communicating knowledge, but be capable of moulding the mind of youth, and of giving to the power which education confers a a useful direction. These are the qualities for which Patrons of Schools, when making choice of Teachers, should anxiously look. They are those which the Commissioners are anxious to find, to encourage, and to reward.

2. The Commissioners have provided a Normal Establishment in Marlborough-street, Dublin, for training Teachers, and educating persons who are intended to undertake the charge of Schools; and they do not sanction the appointment of a Teacher to any School, unless he shall have been previously trained at the Normal Establishment, or shall have been pronounced duly qualified by the Inspector of the District in which the School is situated.

3. Teachers selected by the Commissioners for admission to the Normal Establishment, must produce a Certificate of good character from the officiating Clergyman of the communion to which they belong; and must pass through an examination in the Books published by the Commissioners. They are to be boarded and lodged at the Establishments provided by the Board for the purpose, in Dublin, and at Glasnevin, in the immediate neighbourhood of Dublin, to which latter, an Agricultural Department is attached. They are to receive religious instruction from their respective Pastors, who attend on Tuesdays at the Normal Establishment; and on Sundays they are required to attend their respective places of worship; and a vigilant superintendence is at all times exercised over their moral conduct.

4. They are to attend upon five days in the week at the Training and Model Schools, where lectures are delivered on different branches of knowledge, and where they are practised in the art of Teaching. They are to receive instruction in in Agriculture daily, and they attend on Saturdays at the Farm, at Glasnevin, which is conducted under the direction of the Commissioners, and where they see theory reduced to practice. They undergo a final examination at the close of their course, and each will then receive a certificate according to his deserts. The course of training at present occupies a period of four months and a-half, and for a considerable time previous to their being summoned, they are required to prepare themselves for the course.

5. Teachers of Schools unconnected with the National Board, if properly recommended, are also admitted to attend the Normal Establishment, as day pupils, without any charge for tuition; but such persons maintain themselves at their own expense.

6. All Teachers, appointed after the 1st of April, 1851, who have not been previously classed by the professors or by

APPENDIX A.

I. Rules and Regulations of Commissioners.

a Board of Inspectors, shall be paid as Probationers, until they be examined at the first General or Special examination held in the district subsequently to their appointment. Those who then obtain classification, will be paid from the commencement of their service under the Board according to the rate of salary attached to their class.

7. This rule will not extend to any teachers who, when summoned, shall fail, from any cause whatever, to present themselves for examination.

8. All Teachers who have been unsuccessful at their first examination, and who may be retained on trial, shall receive the salary of the class to which they may be promoted at any subsequent examination, from the commencement of the quarter in which their classification shall be determined.

9. Teachers who after their first examination have been retained on trial as Probationers, if not recommended for promotion by the Head or District Inspectors, at the next ensuing examination, or by the Professors after training, cannot be continued in the service of the Board; but their salaries will be paid for one month subsequent to the date of dismissal.

10. All newly appointed Teachers who, after examination by the Inspectors, may be found wholly unqualified, shall be paid salary up to the close of the month in which the Commissioners refuse to sanction their appointment.

11. The Pupil Teachers of District Model Schools, on taking charge of National Schools after the completion of their course of training, shall rank as Third Class Teachers (provided they be deemed qualified for that class by the Head Inspector) until they shall have been classed at the first General or Special Examination held after their appointment in the district in which their Schools are situated, from which date they will be paid according to their classification.

12. All Teachers must remain at least one year in a lower division of any class, before they are eligible for examination with a view to promotion to a higher division; and they must remain two years in a class before they can become candidates for a higher class. These conditions, however, being fulfilled, Teachers of superior attainments may be advanced from any division of one class to any division of another after their first classification (except untrained Teachers who cannot be placed in the First Class) without requiring them to pass through the intermediate divisions.

13. This regulation does not apply to Teachers who may be promoted on the recommendation of the Professors at the termination of their course of training.

14. All Teachers, except Probationers, recommended for promotion after a course of training, will receive the increase of salary from the commencement of the quarter in which they are classed by the Professors.

15. No Teachers can be raised to any division of the First Class, unless they shall have been trained at the Nor-

mal School of the Commissioners, and recommended for promotion by the Professors at the end of the course of training, or by a Board of Inspectors.

16. The Commissioners have determined upon a course of study for each class, in which the teachers are to be examined as a test of their fitness for promotion; but their general conduct, the condition of their respective schools, their method of conducting them, and the daily average attendance of pupils will also be taken into consideration.

17. No Teacher will be admitted to examination, with a view to promotion, on whose School a decidedly unfavourable report has been made by the District Inspector within the previous year.

18. Teachers will not be eligible for promotion, unless, in addition to satisfactory answering in the course prescribed for the Class to which they aspire, it appears from the reports of their respective District Inspectors, that their Schools are properly organized and well conducted; that adequate exertions have been made to keep up a sufficient average attendance; that their junior classes are carefully taught, and that a fair proportion of the pupils of the higher Classes, besides being proficients in the ordinary branches of Reading, Spelling, and Writing, are possessed of a respectable amount of knowledge in, at least, Grammar, Geography, and Arithmetic. In Female Schools it will be further requisite that instruction in plain Needlework, including sewing, knitting, and cutting-out, be given to all girls capable of receiving it, and that they exhibit a due proficiency in this department.

19. It must also appear from the reports of their Inspectors, that their School Accounts have been regularly and correctly kept, that their Schools and School premises have been preserved with neatness and order, and that cleanliness in person and habits has been enforced on the children attending them.

20. Satisfactory Certificates of conduct and character will be required of all Candidates.

21. Every National Teacher will be furnished, on application to the District Inspector, with a copy of the programme of the course of study above referred to, in which is stated the minimum of proficiency required for each class.

22. The Head and District Inspectors are authorized to recommend that such Teachers be removed, fined, or lowered in their classification as may have conducted themselves improperly, or in whose Schools the attendance has considerably decreased, or who, from any other cause, may seem to these officers to merit such punishment.

23. Salaries are granted by the Commissioners to the Teachers *individually*. No new Teacher, therefore, is to receive a Salary from them unless they have first approved of him; the amount is regulated by the Class in which he may be placed.

APPENDIX A.

I. Rules and Regulations of Commissioners.

2. SALARIES AND GRATUITIES TO TEACHERS AND PAID MONITORS.

1. The Commissioners grant salaries and gratuities to Teachers and to Paid Monitors of National Schools at the following rates, subject to the foregoing and annexed regulations :—

Ordinary National Schools.

		Males.	Females.	
First Class Teachers,	1st Division,	£36 —	£25	per Annum.
	2nd Do.	30 —	22	"
	3rd Do.	25 —	19	"
Second Class do.	1st Division,	22 —	17	"
	2nd Do.	20 —	16	"
Third Class do.	1st Division,	18 —	15	"
	2nd Do.	15 —	13	"
Probationary Teachers, . . .		11 —	10	"
Assistant Teachers, if qualified as Probationers only, . .		11 —	10	"
Do. if qualified for any Division of a higher Class, . . .		15 —	13	"
Mistresses to Teach Needle-work, . .			8	"

2. The Commissioners require that a further income be secured to the Teacher, either by Local Subscription or School-fees, to such amount in each case as they may direct; and the Commissioners also require that the payments made by the Children shall not be diminished in consequence of any increase of Salary which may be awarded to the Teacher.

Agricultural Schools.

1. Masters of Agricultural Model Schools who are competent to conduct both the Literary and Agricultural Departments are, whatever may be their classification, to receive £10 per annum, in addition to the salary of the class in which they may be placed; and provided their income from the Board, with this addition, should fall short of £30 per annum, the difference will be granted to them, so that, in all cases, such Teachers shall have secured to them for their *combined* services a salary of £30 a-year at least.

2. Masters of National Schools, having a small portion of land annexed to their Schools, consisting of from two to three acres, for the purpose of affording agricultural instruction, will receive £5 per annum, in addition to the salary of their class, provided they are competent to conduct both the Literary and Agricultural Departments, and the Commissioners shall have previously approved of Agriculture being taught in the School.

3. In cases where a sufficient number of acres of land are attached to Workhouse Schools in connexion with the National Board of Education, the Commissioners award annual

gratuities, not exceeding £15 to each, to such of the Agricultural Teachers who shall be recommended as deserving of them by the Agricultural Inspectors.

APPENDIX A.

I. Rules and Regulations of Commissioners.

Assistant Teachers.

Salary not to exceed £15 for males, and £13 for females.

1. The Commissioners will not grant a higher rate of Salary than the above to an Assistant Teacher, even if classed; nor will they consider any application for a grant of Salary to an Assistant in any School in which there is not a daily average attendance of at least seventy-five Pupils; and in Schools whose average attendance does not rise considerably above this, and which are already provided with Paid Monitors, Assistants cannot be recognized by the Board.

2. When applications for an Assistant are laid before the Commissioners, they will determine whether it will not be more advisable to appoint a Paid Monitor.

3. Assistant Teachers will not be sanctioned whose qualifications are not at least equal to those required of Probationers.

Workmistresses.

Salary, £8 per annum.

1. The Commissioners will not grant Salary to Workmistresses, unless there be a sufficient daily average attendance of Pupils, and the Commissioners require that at least two hours each day be devoted by them to instruction in this branch.

2. In Schools attended by Female Children only, under the care of a Female Teacher, such Teacher must be competent not only to conduct the Literary Department, but also to give instruction in Needlework.

Schools in Connexion with Religious Bodies.

1. In Schools of this description, salary is paid according to a per centage on the daily average attendance:—

£20	per annum	for 100	daily average,
£40	„	200	„
£60	„	300	„
£77	„	400	„
£94	„	500	„
£111	„	600	„

And for every 50 over 600 at the rate of £15 per cent.

Industrial Schools.

1. In National Schools where embroidery and other high branches of Needlework are taught, the amount of Salary granted for giving such instruction is regulated by the nature of the work, and the number of Pupils engaged in it.

Appendix A.

I. Rules and Regulations of Commissioners.

Paid Monitors.

SALARIES.

For the First Year, ...	£4
For the Second Year, ...	£5
For the Third Year, ...	£7
For the Fourth Year, ...	£8

1. The number of Paid Monitors is limited to eight males and four females in each District, selected from among the best Pupils in the National Schools, and appointed upon the recommendation of the District Inspectors, subject to the approval of the Commissioners.

2. This appointment cannot be held for a longer period than FOUR YEARS, at the expiration of which the Salary will be discontinued.

3. The Salary may, however, be withdrawn at any time, should want of diligence, efficiency, or good conduct on the part of the Monitor, or any other circumstance, render such a course desirable.

4. The District Inspector selects the Schools to which Paid Monitors should be appointed; and when vacancies occur, whether before or after the expiration of four years, it does not necessarily follow that a successor shall be appointed in the same Schools.

5. When all the District Model Schools are established, candidates for the office of Paid Monitor must undergo a Public Examination by the Inspectors, in a prescribed course, to be held in those Schools.

6. The selection will be made, as far as possible, from those who have shown aptitude for teaching.

7. The Candidates should not be under fourteen nor over sixteen years of age. They must be of a sound and healthy constitution, and free from any physical defect likely to impair their efficiency as Teachers.

8. The School to which the Candidate belongs should exhibit a tolerable degree of efficiency, should have a sufficient average attendance to require a Paid Monitor, and the Teacher should be qualified to give instruction in the prescribed course.

9. The Paid Monitors' Programme can be obtained on application to the District Inspector.

10. Paid Monitors who have completed the four years of their course in a satisfactory manner, are eligible, on examination by the Inspectors, for the situation of Assistant Teacher, or of Pupil-Teachers in District Model Schools.

Scale of Gratuities to Masters and Mistresses of Workhouse Schools.

1. The Commissioners for National Education have resolved with the concurrence of the Poor Law Commissioners, to award annual gratuities to a certain number (forty males and forty females) of the Teachers of the Workhouse Schools, in

APPENDIX A.

I. Rules and Regulations of Commissioners.

connexion with the National Board, who shall be recommended by the District Inspectors.

2. The gratuities are divided into two classes :—

For Male Teachers,	First Class, . .	Twenty at £6 a-year each.
	Second Class,	Twenty at £4 a-year each.
For Female Teachers,	First Class, .	Twenty at £5 a-year each.
	Second Class,	Twenty at £3 a-year each.

3. The payment will be made half-yearly, with the usual issue of Salary to Teachers of National Schools, after the 31st March, and 30th September, in each year.

4. It is to be understood that such gratuities are given in *addition* to the Salaries paid to the Teachers of Workhouse Schools, under the provisions of the Poor Law Act.

5. No Teacher is precluded from receiving the gratuity two or more years in succession, if recommended by the District Inspector as deserving of it ; but a Teacher having received one year's gratuity, is not thereby *entitled* to a continuance of it.

Scale of Premiums to Masters and Mistresses of National Schools who are most distinguished by the Order, Neatness, and Cleanliness observable in themselves, their Pupils, and in the School-houses.

1. The sum of £22 10*s*. will be allocated to each of the School Districts, and divided into Thirteen Premiums.

One of £4	£4
Two of £3	£6
Five of £1 10*s*.	£7 10*s*.
Five of £1	£5

2. These Premiums will be awarded ANNUALLY on the recommendation of the District Inspector, and paid at the end of the year.

3. No distinction is made between Vested and Non-Vested Schools.

4. No Teacher is eligible for these Premiums for more than two years in succession.

5. These Premiums will be awarded without reference to the Class in which the Teachers may be placed ; but none will be deemed eligible to receive such Premiums against whom there is any well-founded charge of neglect in the performance of their duties, of impropriety in their conduct, or whose Schools are not conducted in a satisfactory manner.

VI. *Books.*

1. The Commissioners furnish gratuitously to each School a first Stock of School-Books, in proportion to the attendance of Children, which is renewed at the end of every three years. They are to be kept as a School Stock, for which the Master or Mistress is held responsible, and they are on no

APPENDIX A.

I. Rules and Regulations of Commissioners.

account to be taken out of the School. The Commissioners also supply Books from time to time for the general use of the Children, and School Requisites, such as Paper, Slates, Quills, &c., at reduced rates.

2. The funds of the Commissioners do not enable them to give a Free Stock sufficiently large for the entire wants of the School. Any additional books, and maps; stationery, slates, clocks, and other requisites, must be purchased at reduced rates.

3. The value of the grant is regulated by the daily average attendance, as ascertained from the reports of the Inspectors. The Managers of Schools have the privilege of selecting their grants of Free Stock from the *whole* list of books supplied by the Commissioners, and are at liberty to choose such of them as they most approve of, and to omit any to which they object.

4. When Books, &c., purchased from the Commissioners at the reduced price, are sold to the children attending a National School, it is directed that in no case shall any advance be made on these prices; and the District Inspectors have instructions to inquire into and report upon any infraction of this rule.

VII. *Building.*

1. Before any grant is made towards Building a School-house, the Commissioners are to be satisfied that a necessity exists for such a School, that an eligible site has been procured, that a satisfactory Lease of the site will be executed to the Commissioners in their Corporate capacity; and that the applicant parties are prepared to raise, by local contribution, at least one-third of the whole sum which the Commissioners deem necessary for the erection of the House, providing Furniture, &c.

2. If the proposed site be for a School in a rural District, and be within three statute miles of a School-house, towards the erection of which the Commissioners have contributed aid, no grant can be made.

3. Although the Commissioners do not absolutely refuse aid towards the erection of School-houses on ground connected with a place of Worship, yet they much prefer having them erected on ground which is not so connected, where it can be obtained; they therefore require that, before Church, Chapel, or Meeting-house ground be selected as the site of a School-house, *strict* inquiry be made whether another convenient site can be obtained, and that the result shall be stated to them.

4. The School premises must be vested in the Commissioners, at a nominal rent, and for such term, under the circumstances, as they may deem necessary.

5. The Commissioners will keep in repair the School-house and Furniture, where the premises are vested in them in their Corporate capacity.

APPENDIX A.

I. Rules and Regulations of Commissioners.

6. When Grants are voted towards the Building, &c., of a School-house, the conveyance must be duly executed *before the works are commenced.*

7. No Grant can be made until the District Inspector shall have reported upon all the circumstances of the case.

8. The Commissioners determine from the information afforded them the dimensions of the proposed Building.

9. The Commissioners cannot, in any case, pay more than two-thirds of the sum which they may deem necessary for the erection of the School-house (including Furniture, &c.); and they invariably require that the remaining one-third, at least, shall be locally provided for.

10. The cost of the House, &c., is determined by the number of Children which it is intended to accommodate, allowing an area of six square feet for each child.

Example.—A School-house capable of accommodating one hundred Children should contain not less than an area of six hundred square feet, and should be ten feet high to the wall-plate.

11. The Commissioners furnish instructions as to the Plan and Specification, to which the parties receiving aid are bound strictly to adhere.

12. The Commissioners do not contribute to the ornamenting of School-houses, but merely to such expenditure as may be necessary for having the Children accommodated in plain, substantial buildings. If buildings of another description be preferred, the whole of the extra expense must be provided by the applicants.

13. The Commissioners do not contribute towards the expense of erecting Residences for the Teachers, except in the case of a District Model School.

14. The House, Furniture, &c., must be completed, the Teacher or Teachers appointed, and the school in operation, before the Grants can be paid.

15. The whole of the works must be completed within twelve months from the date of the execution of the Lease (unless by special permission), or the Grants will be forfeited.

16. The Commissioners do not make advances or instalments of their Grants.

17. Previous to the payment of the Grants, a Certificate, according to a Form furnished, must be forwarded to the Commissioners, stating that the School-house, Furniture, &c., have been completed in a satisfactory and workmanlike manner, and built according to the dimensions and directions set forth in the Plan and Specification. This Certificate to be signed by the Manager and by the Contractor. The work to be approved of by the Clerk of Works, or by any other person authorized by the Commissioners or the Government to examine it; and if a question arise as to the expenditure in-

I. Rules and Regulations of Commissioners.

curred, the accounts must be submitted to any audit which may be deemed necessary.

18. The Commissioners do not make Grants to purchase School-houses, nor to purchase, alter, or furnish other Houses, for the purpose of being converted into School-houses.

(B) *Form of Lease to the Commissioners of National Education, in their Corporate capacity.*

THIS INDENTURE MADE the day of in the Year of our Lord One Thousand Eight Hundred and BETWEEN of the first part; of the second part; and THE COMMISSIONERS OF NATIONAL EDUCATION IN IRELAND, of the third part. WHEREAS the said Commissioners, by Her Majesty's Royal Charter, bearing date the 26th day of August, in the year of our Lord One Thousand Eight Hundred and Forty-five, have been incorporated, and are by said Charter empowered to take and hold Lands as therein mentioned. AND WHEREAS the Education of the Poor of Ireland has been heretofore, and is now carried on by the said Commissioners, on the principle of avoiding all interference whatsoever with conscientious scruples on the score of Religion, and accordingly, the Schools under their control are open alike to Children of all religious denominations; and no Child is required to be present at any religious instruction or exercise of which his Parents or Guardians may disapprove, and opportunities are afforded to all Children to receive separately at particular periods, to be specified in the Rules of each School, such Religious Instruction as their Parents or Guardians approve of. AND WHEREAS the management of such Schools belongs to the respective local Patrons thereof, who have the power of appointing the Teachers, subject to the approbation of the said Commissioners, and of removing them of their own authority. AND WHEREAS the said desirous that a National School, to be called National School, should be established on the principles aforesaid, on the lot of ground hereinafter demised; and the said and have been nominated as Patrons of the said intended National School, and have been approved of by the said Commissioners. NOW THIS INDENTURE WITNESSETH that the said in order to prŏmote the said object, granted and demised, and by these presents grant and demise unto the said Commissioners of National Education in Ireland, all that Lot of Ground described in the Map thereof on the margin of these Presents delineated, situate in the Townland of Parish of Barony of and County of containing and bounded to hold the same to the said Commissioners of National Education in Ireland, from the day of the date of these Presents,

for and during Yielding therefor during the said term, the Rent of One Penny on the Feast of St. Michael, in every year, if same shall be demanded. And it is hereby expressed and declared, and it is the true intent and meaning of these Presents, and of the several and respective Parties hereto, that each and every School to be kept and established, on the premises hereby demised, shall be kept open for a competent number of hours in each day, at the discretion of the said Commissioners, and shall, during said hours, be used for Moral and Literary Education only; and that one day in each week, or part of a day in the week, independently of Sunday, shall be set apart for the Religious Instruction of the Children, on which day or part of a day, such Pastors or other Persons as may be approved of by the Parents or Guardians of the Children respectively shall have access to them in the School-room for that purpose, whether those Pastors or Persons shall have signed the original application or not. And also, that convenient opportunity be afforded to them for the same purpose on other days of the week, and that where any course of Religious Instruction is to be pursued in any such School as aforesaid, during School-hours, to which the Parents or Guardians of any of the Children attending such School shall object, an arrangement shall be made for having such Instruction given to those who are to receive it at a stated time, or in a separate place, so that no Children whose Parents or Guardians object to their being so, be compelled to receive or to be present at it. And further, that no Books shall be used in the ordinary School business, save and except those which shall be reported to, and sanctioned by the said Commissioners. And further, that if any other Books than the Holy Scriptures, or the Standard Books of the Church to which the Children using them belong, be employed in communicating Religious Instruction, then, and in such case, the Title of each such Book or Books shall be made known to the said Commissioners. And further, that all the Master or Masters, Teacher or Teachers, of each and every such School for the time being, shall not only in the first instance, if the said Commissioners shall see fit, before he, she, or they shall be so appointed, have received previous Instruction in the General Normal Establishment in Dublin, or at one of the District Model Schools of the said Commissioners, and shall also have obtained from the said Commissioners, if the said Commissioners shall so think fit, Testimonials of good conduct and general fitness, but shall be liable to be fined and removed, or suspended from time to time, and at all times when and as often as the said Commissioners shall deem it necessary, in such way and manner as they shall deem expedient, or see fit, upon good and sufficient cause being shown. And further, that the Public of all denominations, whether Clergy or Laity, shall have access to each and every such School, in the manner and under the restrictions particularly set forth in the Rules and Regulations of the said Commissioners, under the Head and Title of "In-

APPENDIX A.

I. Rules and Regulations of Commissioners.

spection of Schools," to observe how such School may be conducted. And that no Meetings of any kind whatever be summoned, held, or convened, or permitted so to be in any such School-house, or in any part or room thereof, or on the premises hereby conveyed or intended so to be, save such as may relate exclusively to the business thereof; and that no Petition or Document of any kind whatsoever, save such as may relate exclusively to the business of the said School, be brought or carried into any such School-house or Premises, or any part thereof, for signature or otherwise; and that such School-house and Premises, or any part thereof, shall not be converted into a place of Public Worship, or used for any purpose save that of such School; and that from and after the day of the date of these Presents, every such School-house shall be kept in full and sufficient repair by the said Commissioners, and that Local Contributions shall be raised towards payment of the Teacher's Salary of such School, after the manner set forth in the Rules and Regulations of the said Commissioners. PROVIDED ALWAYS, and it is hereby further expressed and declared to be the true intent and meaning of these Presents, and of the several Parties hereto, that in case any of them the said and or any Patron hereafter to be appointed, shall die or be desirous of being discharged from the management of said School, or shall go or reside out of Ireland, or shall neglect or refuse, or become incapable to act as such Patron, it shall and may be lawful to and for the surviving or continuing Patron or Patrons, to nominate and appoint a new Patron or Patrons in the room of any such Patron or Patrons, such new Patron or Patrons to be first approved of by the said Commissioners; and in case such surviving or continuing Patron or Patrons shall decline, neglect, or refuse to exercise the powers of appointment hereby given as aforesaid, within six calendar months after all or any of the events hereinbefore mentioned shall arise, happen, or take place; that then, and in all or any of such case or cases, it shall and may be lawful to and for the said Commissioners to nominate and appoint such new Patron or Patrons in the room of any such Patron or Patrons as aforesaid, for the management of said School. And the said hereby for and Heirs, Executors, Administrators, and Assigns, covenant and agree to and with the said Commissioners, that he and they, their and his Heirs, Executors, Administrators, and Assigns, shall and will, from time to time, and at all times hereafter, upon the request of the said Commissioners, and at own proper cost and charges, do, perform, and execute all and every such further and other act and acts, deed and deeds, assignment, conveyance, release, and assurance in the law whatsoever, for corroborating and confirming these Presents as by the said Commissioners or their Counsel learned in the law, shall, in that behalf, be reasonably advised, devised, required, demanded, or directed. And the said Covenant with the said Commissioners of National Education in Ireland, that

the said Commissioners, paying the said Rent, if demanded, shall and may peaceably and quietly possess and enjoy the said Premises for the said term, without any disturbance from the said Heirs, Executors, Administrators, and Assigns. IN WITNESS whereof the said hereunto put hand and seal , and the said Commissioners have caused their Corporate Seal to be affixed hereto, the Day and Year first above written.

VIII. *Aids to Schools previously established.*

1.

1. The aid granted to Schools previously established is limited to Salary and Books.

2. Before such aid can be granted, the Commissioners must be satisfied that the case is deserving of assistance; that there is reason to expect that the School will be efficiently and permanently supported; that some local provision will be made in aid of the Teachers' Salary, either by School-fees or otherwise; that the School-house is in good repair and provided with a sufficient quantity of suitable Furniture; that a competent Teacher has been appointed; that the School is in operation; and that there is a *sufficient* daily average attendance of Children.

3. Before the Commissioners consider any application for aid, they require, from the Inspector of the District, a report upon all the circumstances of the case.

4. To entitle a School to a continuance of aid, the House and Furniture must be kept in sufficient repair, by means of local contributions; the School conducted in all respects, in a satisfactory manner, and in accordance with the regulations of the Commissioners; and it must appear from the Register of the School, that there is a sufficient daily average attendance of Pupils.

2. *Workhouse Schools.*

Extract from the Act for the more effectual Relief of the Destitute Poor of Ireland, 1st and 2nd Vict., ch. 56, sec. 49 :—

> "And be it enacted, that no order of the Commissioners, "nor any by-law shall oblige any inmate of any workhouse to "attend or be present at any religious service which may be "celebrated in a mode contrary to the religious principles of "such inmate, nor shall authorize the education of any child "in such workhouse in any religious creed other than that pro- "fessed by the parents or surviving parent of such child, and "to which such parents or parent shall object, or, in the case of "an orphan, to which the guardian or guardians, godfather or "godmother of such orphan, shall object: Provided also, that

"it shall be lawful for any regular minister of the religious "persuasion of any inmate of such workhouse at all times "in the day, on the request of such inmate, to visit such work-"house, for the purpose of affording religious assistance to "such inmate, *and also for the purpose of instructing his child or "children in the principles of his religion.*"

Such Schools are received into connexion, and grants of Books made thereto, on condition that they shall be subject to inspection by the Commissioners, or their Officers, and that the provisions of the above enactment, in reference to Religious Instruction, shall be faithfully observed.

The Commissioners have resolved, with the concurrence of the Poor Law Commissioners, to award annual gratuities to a certain number of the Teachers of the Workhouse Schools, in connexion with the National Board, who shall be recommended by the District Inspectors.

For Scale of Gratuities and the conditions under which they are awarded, see section V.

3. SCHOOLS ATTACHED TO PRISONS.

Such Schools are received into connexion, upon the same general principles as the Workhouse Schools, and grants of Books are made thereto.

IX.—1. As Applications for aid have frequently been made in respect of expenses incurred previously to any communication with the Commissioners, they desire to be distinctly understood, that they will not hold themselves bound to grant assistance in any case, unless application shall have been made to them in the first instance, unless such application shall have been approved of, and unless they shall have funds at their disposal when they come to decide upon the case, to enable them to grant the required aid. Applicants are therefore recommended not to incur any expense towards the payment of which they expect the Commissioners to contribute, until the decision of the Board shall have been communicated to them.

2. Applicants for assistance are not to understand that the Commissioners are bound to grant the full amount of aid, as set forth in the foregoing Regulations, in every case; nor can they grant any unless they have sufficient funds for the purpose, which depends upon the amount placed at their disposal by Parliament.

3. Persons desirous of obtaining assistance from the Commissioners of National Education, under any of the foregoing heads, will, upon intimating to the Secretaries the nature of the aid required, be furnished with the Forms, upon which their application must be laid before the Commissioners.

4. All communications in reference to National Schools should be made by the Manager or Correspondent. The Commissioners do not correspond with Teachers.

FORMS OF LEASES AND ASSIGNMENT.

II. Forms of Leases and Assignment.

No. 1.—*Form A. of Lease to Commissioners of National Education, in their Corporate capacity.*

THIS INDENTURE made the day of in the Year of our Lord One Thousand Eight Hundred and , BETWEEN of the first Part : of the second Part ; and THE COMMISSIONERS OF NATIONAL EDUCATION IN IRELAND, of the third Part. WHEREAS the said Commissioners, by Her Majesty's Royal Charter, bearing date the 26th day of August, in the year of our Lord One Thousand Eight Hundred and Forty-five, have been incorporated, and are by said Charter empowered to take and hold Lands as therein mentioned. AND WHEREAS the Education of the Poor of Ireland has been heretofore, and is now carried on by the said Commissioners, on the principle of avoiding all interference whatsoever with conscientious scruples on the score of Religion, and accordingly, the Schools under their control are open alike to Children of all religious denominations ; and no Child is required to be present at any religious instruction or exercise of which his Parents or Guardians may disapprove, and opportunities are afforded to all Children to receive separately, at particular periods, to be specified in the Rules of each School, such Religious Instruction as their Parents or Guardians approve of. AND WHEREAS the management of such Schools belongs to the respective local Patrons thereof, who have the power of appointing the

Teachers subject to the approbation of the said Commissioners, and of removing them of their own authority. AND WHEREAS the said desirous that a National School to be called National School, should be established on the principles aforesaid, on the lot of ground hereinafter demised; and the said has been nominated as Patron of the said intended National School, and has been approved of by the said Commissioners, and has been invested with authority to appoint a Successor, subject to the conditions hereinafter more particularly set forth. NOW THIS INDENTURE WITNESSETH that the said in order to promote the said object, granted and demised, and by these Presents grant and demise unto the said Commissioners of National Education in Ireland, all that Lot of Ground described in the Map thereof on the margin of these Presents delineated, situate in the Townland of Parish of Barony of and County of containing and bounded To hold the same to the said Commissioners of National Education in Ireland, from the day of the date of these Presents, for and during Yielding therefor during the said term, the Rent of One Penny on the Feast of St. Michael, in every year, if same shall be demanded. And it is hereby expressed and declared, and it is the true intent and meaning of these Presents, and of the several and respective Parties hereto, that each and every School to be kept and established, on the Premises hereby demised, shall be kept open for a competent number of hours in each day, at the discretion of the said Commissioners, and shall, during said hours, be used for Moral and Literary Education only; and that one day in each week, or part of a day in the week, independently of Sunday, shall be set apart for the Religious Instruction of the Children, on which day or part of a day, such Pastors or other Persons as may be approved of by the Parents or Guardians of the Children respectively shall have access to them in the School-room for that purpose, whether those Pastors or Persons shall have signed the original Application or not. And also, that convenient opportunity be afforded to them for the same purpose on other days of the week, and that where any course of Religious Instruction is to be pursued in any such School as aforesaid, during School-hours, to which the Parents or Guardians of any of the Children attending such School shall object, an arrangement shall be made for having such Instruction given to those who are to receive it at a stated time, or in a separate place, so that no Children whose Parents or Guardians object to their being so, be compelled to receive or to be present at it. And further, that no Books shall be used in the ordinary school business, save and except those which shall be reported to, and sanctioned by the said Commissioners. And further, that if any other Books than the Holy Scrip-

tures, or the Standard Books of the Church to which the Children using them belong be employed in communicating Religious Instruction, then, and in such case, the title of each such Book or Books shall be made known to the said Commissioners. And further, that all the Master or Masters, Teacher or Teachers of each and every such School for the time being, shall not only in the first instance, if the said Commissioners shall see fit, before he, she, or they shall be so appointed, have received previous Instruction in the General Normal Establishment in Dublin, or at one of the District Model Schools of the said Commissioners, and shall also have obtained from the said Commissioners, if the said Commissioners shall so think fit, testimonials of good conduct and general fitness, but shall be liable to be fined and removed, or suspended from time to time, and at all times when and as often as the said Commissioners shall deem it necessary in such way and maner as they shall deem expedient, or see fit, upon good and sufficient cause being shown. And further, that the Public of all denominations, whether Clergy or Laity, shall have access to each and every such School, in the manner and under the restrictions particularly set forth in the Rules and Regulations of the said Commissioners, under the head and title of "Inspection of Schools," to observe how such School may be conducted. And that no meetings of any kind whatever be summoned, held, or convened, or permitted so to be in any such School-house, or in any part or room thereof, or on the Premises hereby conveyed or intended so to be, save such as may relate exclusively to the business thereof; and that no Petition or Document of any kind whatsoever, save such as may relate exclusively to the business of the said School, be brought or carried into any such School-house or Premises, or any part thereof, for signature or otherwise; and that such School-house or Premises, or any part thereof, shall not be converted into a place of Public Worship, or used for any purpose save that of such School; and that from and after the day of the date of these Presents, every such School-house shall be kept in full and sufficient repair by the said Commissioners, and that Local Contributions shall be raised towards payment of the Teachers' Salary of such School, after the manner set forth in the Rules and Regulations of the said Commissioners. PROVIDED ALWAYS, and it is hereby further expressed and declared to be the true intent and meaning of these Presents, and of the several Parties hereto, that in case the said as Patron, shall be desirous of being discharged from the management of said School, or shall go or reside out of Ireland, or shall neglect or refuse, or become incapable to act as such Patron, or shall be anxious for any reason to be relieved from the Patronage of said School, it shall and may be lawful for him to nominate and appoint a Person, who shall in the case of any of the events before mentioned arising, or in case of his death, succeed him as Patron; and that such successor shall

III. Book and Free Stock Lists.

THE PARTICULAR ATTENTION OF MANAGERS OF IRISH NATIONAL SCHOOLS IS REQUESTED TO THE FOLLOWING INSTRUCTIONS.

PAYMENT FOR BOOKS, &c.

1. All applications for Books and Requisites at reduced prices must be addressed to the Secretaries, and be accompanied by a money order for the amount, in favour of *Maurice Cross or James Kelly, Esq., and payable in Dublin on demand.*

2. When a post-office order is transmitted, and the amount is under *ten shillings*, the postmaster's charge must be paid by the person applying for the order; if the sum exceed ten shillings, it is to be handed to the postmaster, who will deduct his charge, and Requisites will be given for the *full amount* PAID.

3. The correspondent is not to sign any application for Books and Requisites without first ascertaining that they are actually wanted for the school, on behalf of which the application is made. The Inspectors are required to report to the Secretaries whenever it appears that an undue quantity of Books or Stationery has been ordered for a National School.

4. All applications for Books and Requisites, at reduced prices, are to be prepaid by the Managers, or the amount of postage will be deducted from the grant.

5. When there are separate ROLL NUMBERS for Male and Female National Schools, the application should state for which of them the books, &c., are required; and if for both, *two* forms should be used.

TRANSMISSION OF PARCELS.

6. The Parcel, when so desired, will be forwarded, carriage free, to the Depot of the District in which the School for which the Books are required is situated, and when arrived, the Inspector will inform the Manager on what day it will be ready for delivery; or to the Depot of any other District, if more convenient; but in the latter case, the Inspector, not knowing the Managers of any Schools out of his District, cannot give notice.

7. Or the Parcel will be forwarded to any place nearest to the Manager's residence to which there is a mode of conveyance. In the latter case the Manager must point out the precise mode of conveyance by which the Parcel is to be transmitted, and he must also defray the cost of carriage.

8. When Parcels are forwarded to the Depot of a District it is *not* the duty of the Inspector to transmit the Parcel to the Manager's residence or to the School.

9. The Manager is required to send to the Depot on the day appointed by the Inspector for delivery of Parcels, a messenger who must present the order on the Inspector, with which the Manager will be furnished, and which order the Inspectors are required to transmit to this Office as a proof of the delivery of the Parcels.

Appendix A.

III. Book and Free Stock Lists.

10. Books and Requisites ordered for delivery at this Office, are to be called for between the hours of 10 and 4 o'clock, and not sooner than two days after the receipt of the money. The carrier must produce the order of the Manager.

GRATUITOUS STOCK.

Extracts from the Rules and Regulations of the Commissioners of National Education in Ireland.

Section II.—"The use of the Books furnished by the Commissioners is not compulsory."

Section VI.—Books.—"1. The Commissioners furnish gratuitously to each School a First Stock of School Books, in proportion to the attendance of Children, WHICH IS RENEWED AT THE END OF EVERY THREE YEARS. They are to be kept as a School Stock, for which the Master or Mistress is held responsible, and they are on no account to be taken out of the School. The Commissioners also supply Books from time to time for the general use of the Children, and School Requisites, such as Paper, Slates, Quills, &c., at reduced rates."

"3. When Books, &c., purchased from the Commissioners at the reduced price, are sold to the Children attending a National School, it is directed that in no case shall any advance be made on these prices; and the District Inspectors have instructions to inquire into and report upon any infraction of this rule."

Book Circular.

Education Office,

Dublin, day of , 185 .

Sir,—In accordance with the above Regulations, we are to inform you that a Grant of Books and Requisites has been made for the use of the within-named National School to the amount stated.

The selection of the Books and Requisites is left to the Manager, with the exception of a Map of the World, and a Set each of Spelling and Arithmetical Tablets, mounted on boards, which the Commissioners require shall form a part of *every First Free Stock.*

You are requested to enter upon this list, without delay, such Books, &c., as will, at the prices specified in the annexed list, amount to the sum granted, and return the Document to this Office, prepaid, with your signature.

As soon as the list is returned, duly filled and signed, the parcel shall be sent as desired, with the least possible delay, and you will receive an invoice of the Books and Requisites, which must be pasted in the Daily Report Book.

Your attention is particularly requested to the following Instructions respecting the transmission of Parcels of Books;—

APPENDIX A.

III. Book and Free Stock Lists.

1. The Parcel, when so desired, will be forwarded, carriage free, to the Depot of the District in which the School for which the Books are required is situated; or to the Depot of any other District, if more convenient.

2. Or the Parcel will be forwarded to any place nearest to the Manager's residence to which there is a mode of conveyance. In the latter case the Manager must point out the precise mode of conveyance by which the Parcel is to be transmitted, and he must also defray the cost of carriage.

3. When Parcels are forwarded to the Depot of a District it is *not* the duty of the Inspector to transmit the Parcel to the Manager's residence or to the School.

4. The Manager is required to send to the Depot on the day appointed by the Inspector for delivery of Parcels, a messenger, who must present the order on the Inspector, with which the Manager will be furnished; and which order the Inspectors are required to transmit to this Office as a proof of the delivery of the Parcels.

5. If the Parcel is to be sent by a Carrier, he must call at this Office, not sooner than two days after the Manager's directions shall have been received, and must produce the Manager's order to the Storekeeper here, for its delivery.

You are required to purchase such additional Books and Maps, Stationery, Slates, and other Requisites, as may be necessary to supply fully the wants of the School. No. 10.—INSTRUCTIONS for making Applications for Salary and Books.

Education Office,

SIR,—We have to acknowledge the receipt of your Letter requesting Aid towards the establishment of a National School.

For the sake of uniformity, and to facilitate official reference, we enclose two blank Forms, upon which we are to request you will make your application, forwarding to us *duplicate* copies of it.

We are to observe, that the following are the principal heads of information which it is desirable all applications should contain:

1. The Name of the School.—2. The situation as to County, Parish, Townland, and Barony.—3. Name of the nearest Post Town, and in which direction.—4. Description and condition of the House.—5. Number of School-rooms and dimensions of each.—6. Condition, description, and quantity of Furniture.—7. Names and Ages of Teacher or Teachers.—8. Average daily attendance of Children, Males and Females.—9. The School hours.—10. Arrangement, and time for Religious Instruction.—11. The Books used, (if those of the National Board, which of them).—12. Arrangement for admission of Visitors.—13. The Management of the School; if under an Individual, his name and address; If under a Committee, by whom elected.—14. Name and address of Correspondent. *All applications must be signed by the parties making them; and it is particularly requested that their religious denomination (distinguishing the Clergy from the Laity) may be stated.*

In supplying the foregoing "heads of information," the Commissioners do not mean to prescribe any form of application from which you are not to deviate—the propose them merely for your assistance; and you will please to bear in mind, that it is most desirable the rules by which the School is governed should be distinctly set forth, in order that the Commissioners may be enabled to come to a just decision upon the merits of your application.

APPENDIX A.

IV. Official Forms.

In order that you may be fully aware, what extent of aid the Commissioners can give, we are to inform you, that, in consequence of the increased demands upon their funds for payment of Teachers' Salaries, the Commissioners have been compelled to limit their grants to *Salaries and Books*, except where they may see fit to grant aid for the building of School-houses, in which case the Premises must be vested in them in their Corporate capacity.

The Commissioners do not make grants for the repairs of School-houses, and their grants for Furniture are confined exclusively to *vested* Schools; your application, therefore, will not be favourably entertained unless the *School-house be in good repair, and provided with a sufficient quantity of suitable Furniture; a competent Teacher or Teachers must be appointed, and the School be in operation, before the application can be considered.* You must also be prepared to show from a record kept in the School what has been the AVERAGE ATTENDANCE OF SCHOLARS.

Should your application be granted, the Salary will be rated according to the annexed statement of the regulations adopted by the Commissioners for the classification and remuneration of Teachers.

A supply of National School Books, proportioned to the number of Children in attendance, will be granted. The Funds of the Commissioners will not enable them to give a Free Stock sufficiently large for the entire wants of the School. It will consist chiefly of Books and Lessons suited to the junior classes, viz.:—Spelling and Reading Tablets, First, Second, and Third Books, Grammars, Arithmetics, Copy Lines, and Arithmetical Tablets, also a Register and Report Book. The more advanced Lesson Books, Maps, Slates, Pencils, and Stationery, *which you are expected to purchase*, can only be granted on payment of the reduced prices.

You will also observe, that the Aid will not be *continued* unless you keep the School-house and Furniture in a proper state of repair, the Commissioners being prevented, by the rules laid down for their guidance, from allocating any portion of the Parliamentary Grant towards the *repairs* of any School-houses except those that are vested in themselves.

As soon as you forward your application to us, *in duplicate*, upon the blank sheets herewith sent, we shall direct the District Inspector to appoint a convenient time to wait upon you for the purpose of inquiring into all the circumstances of the case, and procuring such further information as the Commissioners may require.

In conclusion, we are to inform you, that it is the rule of the Commissioners to consider each application in the order of the date at which it is received in this Office.

No. 11.—INSTRUCTIONS for making Application for Aid towards Building National School-houses.

Education Office.

SIR,—We have to acknowledge the receipt of your Letter requesting Aid towards the Building of a National School.

For the sake of uniformity, and to facilitate official reference, we enclose two Blank Forms, upon which we are to request you will make your application, forwarding to us *duplicate* copies of it.

We are to observe, that the following are the principal heads of information which it is necessary all applications should contain:

1. The name by which the proposed School is to be designated.—2. The situation of the proposed site, as to County, Parish, Townland, and Barony.—3. Name and profession of the person making a Lease of the site, under what title he makes the Lease.—4. The length of Tenure.—5. The Rent (if any).—6. The expected attendance of Children, Male and Female—Whether one or two School-rooms will be required.—7. Name and address of Correspondent.

All applications must be signed by the parties making them; and it is particularly requested that their religious denominations (distinguishing the Clergy from the Laity) may be stated.

In supplying the foregoing "heads of information," the Commissioners do not mean to prescribe any *form of application* from which you are not to deviate—they propose them merely for your assistance, and to facilitate the Inspector of the District in making the necessary inquiries.

As soon as you forward to us your application, *in duplicate*, upon the blank sheets herewith sent, we shall direct the Inspector of the District to appoint a convenient time to wait upon you for the purpose of inquiring into all the circumstances of the case, and procuring such further information as the Commissioners may require; upon the receipt of his report, the application will be considered in the order of its date.

We beg to state, for your further information, that where the Commissioners make a grant for the erection of a School-house, they will require the Premises to be vested in them in their Corporate capacity, for the purpose of National Education, before the works are commenced; and no Grant will be made unless a satisfactory Lease for sixty years, or longer can be given, or for at least three lives, or thirty-one years.

Although the Commissioners do not absolutely refuse aid towards the erection of School-houses on ground connected with a place of Worship, yet they much prefer having them erected on ground which is not so connected, where it can be obtained; they therefore expect that, before Church, Chapel, or Meeting-house ground be adopted as the site of a School-house, *strict* inquiry be made whether another convenient site can be obtained, and that the result shall be stated to them.

APPENDIX A.

IV. Official Forms.

The cost of the house, including privies, is determined by the number of Children which it is intended to accommodate, allowing six square feet per Child. The Commissioners consider a sum not exceeding £1 for each, to be sufficient for the purpose, of which they will contribute two-thirds; the remaining one-third must be locally raised: for example, a School-house capable of accommodating one hundred Children should contain an area of six hundred square feet. The expense of erecting such a Building, including privies, should not exceed £100. Of this sum, the proportion granted by the Commissioners is £66 13*s.* 4*d.*, being the two-thirds.

The quantity of furniture is also determined by the number of Children, and one-third of the whole cost must, in like manner, be locally raised.

Where a Grant is made for building a School-house, the applicants are bound to a strict observance of the Rules of the Board, a copy of which is transmitted herewith.

We are also to acquaint you, that the Commissioners, being desirous of complying with the increasing claims made upon them for assistance, will have no objection to entertain applications for *Salary and Books*, wherever *temporary* Schools can be established, until the new Building, should a Grant be made for the purpose, can be opened for the reception of the Pupils.

Should you consider it desirable to avail yourself of such assistance, you are requested to intimate it to us without loss of time, in order that the necessary forms of application may be forwarded to you.

The conditions upon which Salary and Books will be awarded are these:—That the School-house be in good repair; that it be provided with suitable Furniture; that a competent Teacher or Teachers be appointed, and the School in operation attended by a sufficient number of Children.

You are requested to observe that the Commissioners are prevented by the rules laid down for their guidance, from allocating any portion of the Parliamentary Grant towards the *repairs* of any School-houses, except those that are vested in themselves.

We are desired to state for your further information, that the rule of the Commissioners is to restrict their aid EXCLUSIVELY TO SALARY AND BOOKS, except to Schools towards the erection of which they may consider it proper to contribute, and which, as already stated, must be vested in them for the purposes of National Education.

We are, Sir,

Your obedient Servants,

MAURICE CROSS,
JAMES KELLY, } Secretaries.

APPENDIX A.

V. Practical Rules for Teachers.

V.

1. TWELVE PRACTICAL RULES for the TEACHERS of NATIONAL SCHOOLS.

1. The Teachers of National Schools are required—To keep at least one copy of the GENERAL LESSON suspended conspicuously in the School-room, and to inculcate the principles contained in it on the minds of their Pupils.

2. To exclude from the School, except at the hours set apart for Religious Instruction, all Catechisms and Books inculcating peculiar religious opinions.

3. To avoid fairs, markets, and meetings—but above all, POLITICAL meetings of every kind; to abstain from controversy; and to do nothing either in or out of School which might have a tendency to confine it to any one denomination of Children.

4. To keep the Register, Report Book, and Class Lists accurately and neatly, and according to the precise form prescribed by the Board.

5. To classify the Children according to the National School Books; to study those Books themselves; and to teach according to the improved method, as pointed out in their several prefaces.

6. To observe themselves, and to impress upon the minds of their Pupils, the great rule of regularity and order—A TIME AND A PLACE FOR EVERY THING, AND EVERY THING IN ITS PROPER TIME AND PLACE.

7. To promote, both by precept and example, CLEANLINESS, NEATNESS, and DECENCY. To effect this the Teachers should set an example of cleanliness and neatness in their own person, and in the state and general appearance of their Schools. They should also satisfy themselves, by personal inspection every morning, that the Children have had their hands and faces washed, their hair combed, and clothes cleaned, and, when necessary, mended. The School apartments, too, should be swept and dusted every *evening*, and white-washed at least once a year.

8. To pay the strictest attention to the morals and general conduct of their Pupils and to omit no opportunity of inculcating the principles of TRUTH and HONESTY: the duties of respect to superiors and obedience to all persons placed in authority over them.

9. To evince a regard for the improvement and general welfare of their Pupils, to treat them with kindness, combined with firmness, and to aim at governing them by their affections and reason, rather than by harshness and severity.

10. To cultivate kindly and affectionate feelings among their Pupils; to discountenance quarrelling, cruelty to animals, and every approach to vice.

11. To record in the School Report Book the amount of all

VI. Rules and Regulations as to Appointment, Examination, and Classification of Teachers, Monitors, &c., &c.

GENERAL RULES and REGULATIONS as to the APPOINTMENT, EXAMINATION, and CLASSIFICATION of TEACHERS and MONITORS, &c. &c.

1. APPOINTMENT AND CLASSIFICATION OF TEACHERS.

1. The appointment of Teachers rests with the Local Patrons and Committees of Schools, but the Commissioners are to be satisfied with the fitness of each, both as to character and general qualification; and the Local Patrons have the power of removing the Teachers of their own authority. The Teacher should be a person of Christian sentiment, of calm temper, and discretion; he should be imbued with a spirit of peace, of obedience to the law, and of loyalty to his Sovereign; he should not only possess the art of communicating knowledge, but be capable of moulding the mind of youth, and of giving to the power which education confers a useful direction. These are the qualities for which Patrons of Schools, when making choice of Teachers, should anxiously look. They are those which the Commissioners are anxious to find, to encourage, and to reward.

2. The Commissioners have provided a Normal Establishment in Marlborough-street, Dublin, for training Teachers, and educating persons who are intended to undertake the charge of Schools; and they do not sanction the appointment of a Teacher to any School, unless he shall have been previously trained at the Normal Establishment, or shall have been pronounced duly qualified by the Inspector of the District in which the School is situated.

3. Teachers selected by the Commissioners for admission to the Normal Establishment, must produce a Certificate of good character from the officiating Clergyman of the communion to which they belong; and must pass through an examination in the Books published by the Commissioners. They are to be boarded and lodged at the establishments provided by the Board for the purpose, in Dublin, and at Glasnevin, in the immediate neighbourhood of Dublin, to which latter an Agricultural Department is attached. They are to receive Religious Instruction from their respective Pastors, who attend on Tuesdays at the Normal Establishment; and on Sundays

Appendix A.

VI. Rules and Regulations as to Appointment, Examination, and Classification of Teachers, Monitors, &c., &c.

they are required to attend their respective places of Worship; and a vigilant superintendence is at all times exercised over their moral conduct.

4. They are to attend upon five days in the week at the Training and Model Schools, where lectures are delivered on different branches of knowledge, and where they are practised in the art of Teaching. They are to receive instruction in Agriculture daily, and they attend on Saturdays at the Farm, at Glasnevin, which is conducted under the direction of the Commissioners, and where they see theory reduced to practice. They undergo a final examination at the close of their course, and each will then receive a certificate according to his deserts. The course of Training at present occupies a period of four months and a-half, and for a considerable time previous to their being summoned, they are required to prepare themselves for the course.

5. Teachers of Schools unconnected with the National Board, if properly recommended, are also admitted to attend the Normal Establishment, as day pupils, without any charge for tuition; but such persons maintain themselves at their own expense.

6. All Teachers, appointed after the 1st of April, 1851, who have not been previously classed by the Professors or by a Board of Inspectors, shall be paid as Probationers, until they be examined at the first General or Special Examination held in the district subsequently to their appointment. Those who then obtain classification, will be paid from the commencement of their service under the Board according to the rate of salary attached to their class.

7. This rule will not extend to any teachers who, when summoned, shall fail, from any cause whatever, to present themselves for examination.

8. All Teachers who have been unsuccessful at their first examination, and who may be retained on trial, shall receive the salary of the class to which they may be promoted at any subsequent examination, from the commencement of the quarter in which their classification shall be determined.

9. Teachers who after their first examination have been retained on trial as Probationers, if not recommended for promotion by the Head or District Inspectors, at the next ensuing examination, or by the Professors after training, cannot be continued in the service of the Board; but their salaries will be paid for one month subsequent to the date of dismissal.

10. All newly appointed Teachers who, after examination by the Inspectors, may be found wholly unqualified, shall be paid salary up to the close of the month in which the Commissioners refuse to sanction their appointment.

11. The Pupil Teachers of District Model Schools, on taking charge of National Schools after the completion of their course of training, shall rank as Third Class Teachers (provided they be deemed qualified for that class by the Head

APPENDIX A.

VI. Rules and Regulations as to Appointment, Examination, and Classification of Teachers, Monitors, &c., &c.

Inspector) until they shall have been classed at the first General or Special Examination held after their appointment in the district in which their Schools are situated, from which date they will be paid according to their classification.

12. All Teachers must remain at least one year in a lower division of any class before they are eligible for examination with a view to promotion to a higher division; and they must remain two years in a class before they can become candidates for a higher class. These conditions, however, being fulfilled, Teachers of superior attainments may be advanced from any division of one class to any division of another after their first classification (except untrained Teachers who cannot be placed in the First Class) without requiring them to pass through the intermediate divisions.

13. This regulation does not apply to Teachers who may be promoted on the recommendation of the Professors at the termination of their course of training.

14. All Teachers, except Probationers, recommended for promotion after a course of training, will receive the increase of salary from the commencement of the quarter in which they are classed by the Professors.

15. No Teachers can be raised to any division of the First Class, unless they shall have been trained at the Normal School of the Commissioners, and recommended for promotion by the Professors at the end of the course of training, or by a Board of Inspectors.

16. The Commissioners have determined upon a course of study for each class, in which the Teachers are to be examined as a test of their fitness for promotion; but their general conduct, the condition of their respective Schools, their method of conducting them, and the daily average attendance of pupils, will also be taken into consideration.

17. No Teacher will be admitted to examination, with a view to promotion, on whose School a decidedly unfavourable report has been made by the District Inspector within the previous year.

18. Teachers will not be eligible for promotion, unless, in addition to satisfactory answering in the course prescribed for the Class to which they aspire, it appears from the reports of their respective District Inspectors, that their Schools are properly organized and well conducted: that adequate exertions have been made by them to keep up a sufficient average attendance; that their junior classes are carefully taught, and that a fair proportion of the pupils of the higher classes, besides being proficients in the ordinary branches of Reading, Spelling, and Writing, are possessed of a respectable amount of knowledge in, at least, Grammar, Geography, and Arithmetic. In Female Schools it will be further requisite that instruction in plain Needlework, including sewing, knitting, and cutting out, be given to all girls capable of receiving it, and that they exhibit a due proficiency in this department.

19. It must appear from the reports of their Inspectors,

that their School Accounts have been regularly and correctly kept, that their Schools and School premises have been preserved with neatness and order, and that cleanliness in person and habits has been enforced on the children attending them.

APPENDIX A.

VI. Rules and Regulations as to Appointment, Examination, and Classification of Teachers, Monitors, &c., &c.

20. Satisfactory Certificates of conduct and character will be required of all Candidates.

21. Every National Teacher will be furnished, on application to the District Inspector, with a copy of the programme of the course of study above referred to, in which is stated the minimum of proficiency required for each Class.

22. The Head and District Inspectors are authorized to recommend that such Teachers be removed, fined, or lowered in their classification as may have conducted themselves improperly, or in whose Schools the attendance has considerably decreased, or who, from any other cause, may seem to these officers to merit such punishment.

23. Salaries are granted by the Commissioners to the Teachers *individually.* No new Teacher, therefore, is to receive a Salary from them unless they have first approved of him ; the amount is regulated by the Class in which he may be placed.

*Johnston's Catechism of Agricultural Chemistry, or any other Treatise on the same subject which the Commissioners may publish or sanction.

The Female Teachers will not be required to be prepared on the subjects marked with an asterisk.

Candidates for promotion must be prepared for examination in any of the subjects prescribed for the Class or Classes below that to which they desire to be raised.

General Conditions.

The minimum of proficiency required of the Teachers of each Class is stated in the preceding programme.

All Teachers must remain at least one year in a lower division of any Class, before they are eligible for promotion to a higher division of the same; and they must remain two years in a lower Class before they are eligible for promotion to a higher Class.

This regulation does not apply to Probationary Teachers, nor to Teachers who may be promoted on the recommendation of the Professors at the termination of the course of training.

None but Teachers trained at the Normal School of the Commissioners are eligible for promotion to *any division of the First Class*, and only upon the recommendation of the Professors, or of a Board of Inspectors.

Examinations are to be held, at specified times, by the Inspectors, with the view of promoting meritorious Teachers; while those who may have conducted themselves improperly, or in whose Schools the attendance has considerably decreased, will be liable to be depressed.

No Teacher will be admitted to examination, with a view to promotion, on whose School a decidedly unfavourable report has been made by the District Inspector within the previous year.

Teachers will not be eligible for promotion, unless, in addition to satisfactory answering in the course prescribed for the Class to which they aspire, it appears from the reports of their respective District Inspectors that their Schools are properly organized and well conducted; that adequate exertions have been made by them to keep up a sufficient average attendance; that their junior Classes are carefully taught, and that a fair proportion of the Pupils of the higher Classes, besides being proficients in the ordinary branches of Reading, Spelling, and Writing, are possessed of a respectable amount of knowledge in, at least, Grammar, Geography, and Arithmetic. In Female Schools it will be further requisite that instruction in Plain Needlework, including sewing, knitting, and cutting out, be given to all girls capable of receiving it, and that they exhibit a due proficiency in this department.

It must also appear, from the reports of their Inspectors, that their School Accounts have been regularly and correctly kept, that their Schools and School premises have been preserved with neatness and order, and that cleanliness in person and habits has been enforced on the children attending them.

APPENDIX A.

VI. Rules and Regulations as to Appointment, Examination, and Classification of Teachers, Monitors, &c., &c.

None can be appointed as Assistant Teachers whose qualifications are not equal to those required of Probationers.

Satisfactory certificates of character and conduct will be required of all Candidates.

3. EXAMINATION OF TEACHERS.

General Regulations.

I. It is intended that a General Examination of the Teachers shall take place every Fifth Year. (The first General Examination took place in 1848 for Male Teachers, and in 1849 for Female Teachers.)

II. That a Special Examination shall be held in each of the intervening years.

III. That at these Special Examinations there will be required to attend—

1st.—All Candidates for Promotion.

2nd.—All Probationers.

3rd.—Teachers who may have been absent from the Examination to which they had been previously summoned.

4th.—Those whose answering at such previous Examination may have been unsatisfactory.

5th.—Those whom the District Inspector may think proper for special reasons to summon.

IV. Trained Teachers, except at their own request, and with the sanction of the District Inspector, will not be required to attend any Examination that may be held during the three years subsequent to the date of their classification by the Professors at the expiration of the course of training.

V. National Teachers 45 years of age and upwards, who have served under the Board for a period of not less than 15 years, or Teachers who have attained 50 years of age, and served not less than 10 years, will not be required to attend any Examination, provided they have been already examined and classed by the Professors, or a Board of Inspectors.

VI. As the Commissioners have decided that *Teachers must remain Two Years in a lower Class before they are eligible for promotion to a higher*, the Candidates for examination with a view to promotion, must, each year, be restricted to those who come under this condition. With this restriction, however, it is to be understood, that deserving Teachers may at the second and all subsequent examinations, as well as at the first, be promoted from any division of one class to any divi-

APPENDIX A.

VI. Rules and Regulations as to Appointment, Examination, and Classification of Teachers, Monitors, &c., &c.

sion of a higher (except untrained Teachers, who cannot be placed in the First Class), without requiring them to pass through intermediate divisions.

VII. Teachers who may have absented themselves, without satisfactory reason assigned, from the examinations of previous years, will be liable to be dismissed should they not present themselves when again summoned.

All Teachers also who may be *specially* summoned, and who shall be absent without a sufficient reason, will be liable to be fined or depressed.

VIII. The written part of the Examination for Male Teachers, which will occupy one whole day, will be held by the District Inspector, in Easter Week, at such central point in his District as he may think proper to fix upon.

IX. The period for the Oral Examination of the Male Teachers, and for the Examination of the Female Teachers, will be afterwards appointed; these Examinations to be conducted by a Head Inspector, aided by the Inspector of the District.

X. It is required that all those who may seek to become Candidates for promotion within the limits already laid down, shall intimate to the District Inspector, before the 15th March, that such is their wish, and he will inform them whether they may present themselves for Examination.

4. SALARIES AND GRATUITIES TO TEACHERS AND PAID MONITORS.

1. The Commissioners grant salaries and gratuities to Teachers and to Paid Monitors of National Schools at the following rates, subject to the foregoing and annexed regulations:—

Ordinary National Schools.

		Males.	Females.	
First Class Teachers,	1st Division,	£36	£25	per annum.
	2nd do.	30	22	”
	3rd do.	25	19	”
Second Class do.	1st Division,	22	17	”
	2nd do.	20	16	”
Third Class do.	1st Division,	18	15	”
	2nd do.	15	13	”
Probationary Teachers, ...		11	10	”
Assistant Teachers, if qualified as Probationers only, ...		11	10	”
Do. if qualified for any Division of a higher Class, ...		15	13	”
Mistresses to teach Needlework, . . .		”	8	”

2. The Commissioners require that a further income be secured to the Teacher, either by Local Subscription or School-fees, to such amount in each case as they may direct;

and the Commissioners also require that the payments made by the Children shall not be diminished in consequence of any increase of Salary which may be awarded to the Teacher.

APPENDIX A.

VI. Rules and Regulations as to Appointment, Examination, and Classification of Teachers, Monitors, &c., &c.

Agricultural Schools.

1. Masters of Agricultural Model Schools who are competent to conduct both the Literary and Agricultural Departments are, whatever may be their classification, to receive £10 per annum, in addition to the salary of the class in which they may be placed; and provided their income from the Board, with this addition, should fall short of £30 per annum, the difference will be granted to them, so that, in all cases, such Teachers shall have secured to them for their *combined* services a salary of £30 a-year at least.

2. Masters of National Schools, having a small portion of land annexed to their Schools, consisting of from two to three acres, for the purpose of affording Agricultural instruction, will receive £5 per annum, in addition to the salary of their class, provided they are competent to conduct both the Literary and Agricultural Departments, and that the Commissioners shall have previously approved of Agriculture being taught in the School.

3. In cases where a sufficient number of acres of land are attached to Workhouse Schools in connexion with the National Board of Education, the Commissioners award annual gratuities, not exceeding £15 to each, to such of the Agricultural Teachers who shall be recommended as deserving of them by the Agricultural Inspector.

Assistant Teachers.

Salary not to exceed £15 for Males, and £13 for Females.

1. The Commissioners will not grant a higher rate of Salary than the above to an Assistant Teacher, even if classed; nor will they consider any application for a grant of Salary to an Assistant in any School in which there is not a daily average attendance of at least seventy-five Pupils; and in Schools whose average attendance does not rise considerably above this, and which are already provided with Paid Monitors, Assistants cannot be recognized by the Board.

2. When Applications for an Assistant are laid before the Commissioners, they will determine whether it will not be more advisable to appoint a Paid Monitor.

3. Assistant Teachers will not be sanctioned whose qualifications are not at least equal to those required of Probationers.

Workmistresses.

Salary, £8 per annum.

1. The Commissioners will not grant Salary to Workmistresses unless there be a sufficient daily average attendance of Pupils, and the Commissioners require that at least two hours each day be devoted by them to instruction in this branch.

APPENDIX A.

VI. Rules and Regulations as to Appointment, Examination, and Classification of Teachers, Monitors, &c., &c.

2. In Schools attended by Female Children only, under the care of a Female Teacher, such Teacher must be competent not only to conduct the Literary Department, but also to give instruction in Needlework.

Schools in Connexion with Religious Bodies.

1. In Schools of this description, salary is paid according to a per centage on the daily average attendance :—

For	100	daily average attendance	£20	Increase per cent.	£20	per annum.
„	200	„	40			
„	300	„	60			
„	400	„	77	„	£17	„
„	500	„	94			
„	600	„	111			
Above	600	„	„	„	£15	„

Where the daily average attendance amounts to 30 above the 100, Salary for 50 will be allowed ; and when it amounts to 75 above the 100, Salary will be allowed for an additional 100.

2. As the amount of Salary will in all cases depend upon the average attendance of Pupils, Managers are to be prepared for augmentation or diminution accordingly.

Industrial Schools.

1. In National Schools where embroidery and other high branches of Needlework are taught, the amount of Salary granted for giving such instruction is regulated by the nature of the work, and the number of Pupils engaged in it.

PAID MONITORS.

Qualifications of Candidates.

I. *Appointment.*—The selection should be made, as far as possible, from those who have shown a taste for teaching.

II. The Candidates should not be under fourteen nor over sixteen years of age. They must be of a sound and healthy constitution, and free from any physical defect likely to impair their efficiency as Teachers.

III. The School to which the Candidate belongs should exhibit a tolerable degree of efficiency, should have a sufficient average attendance to require a Paid Monitor, and the Teacher should be qualified to give instruction in the prescribed course.

IV. The Candidates will be required :—

1st. *Reading.*—To read the Third Book fluently, and to answer, with readiness, the explanatory questions arising from Lessons selected in this and the earlier Books.

2nd. *Spelling.*—To spell correctly the words occurring in any portion of these Lesson Books.

3rd. *Writing.*—To write small-hand neatly and legibly.

4th. *Grammar.*—To refer to their respective parts of speech the words in the Lessons selected for examination.

6th. *Arithmetic.*—To work with readiness and accuracy easy sums in the Simple and Compound Rules, in Reduction and Proportion.

7th. *Art of Teaching.*—To teach a Junior Class to the satisfaction of the District Inspector.

8th. *Needlework.*—In addition to the above qualifications, females must be able to sew neatly, and to knit.

Programme of Examination and Course of Study for Paid Monitors, in each Year of their Course.

FIRST YEAR.

At the end of the First Year they will be required :—

1. *Reading.*—To read the Fourth Lesson Book with ease and correctness, and exhibit some knowledge of the subjects treated of therein.

2. *Etymology.*—To be familiar with the prefixes, affixes, and the principal or most productive roots; and with the mode of applying them.

3. *Spelling.*—To spell correctly, from dictation, any ordinary sentence.

4. *Arithmetic.*—To solve questions in Compound Proportion and Fractions, and be familiar with the principles on which these and the preceding rules depend. *The Girls will not be required to know Fractions.*

5. *Grammar.*—To have a knowledge of the elementary principles of parsing.

6. *Geography.*—To know the Geography of Ireland.

7. *Art of Teaching.*—To teach and examine the Second Class.

8. *Needlework.*—Girls to be able to instruct the younger scholars in sewing and knitting.

SECOND YEAR.

At the end of the Second Year they will be required :—

1. *Reading.*—To have some knowledge of the principles of reading, as explained in the First Part of the Introduction to the Art of Reading, and to be prepared for examination on the subjects of the Fourth Book and on the Easy Lessons on Money Matters.

2. *Spelling.*—To write, in a neat hand and with correct spelling, more difficult sentences from dictation, and be prepared for examination on the rules for spelling as given in the Spelling Book Superseded, and on the previous portions of the same book.

APPENDIX A.

VI. Rules and Regulations as to Appointment, Examination, and Classification of Teachers, Monitors, &c., &c.

3. *Arithmetic.*—To solve questions in Practice and Interest, and to have some knowledge of Mental Arithmetic. *This year's course for the Girls will, in this branch, be limited to Practice.*

4. *Grammar.*—To parse an easy sentence, according to the rules of Syntax.

5. *Geography.*—To know the general Geography of Europe, and the rudiments of Mathematical Geography, as explained in the first four chapters of the Geography Generalized.

6. *Art of Teaching.*—To teach and examine a class in the Sequel to the Second Book of Lessons.

7. *Needlework.*—Girls must exhibit increased skill in the teaching of plain Needlework.

THIRD YEAR.

At the end of the Third Year they will be required:—

1. *Reading.*—To read with ease and expression, and be acquainted with the principles of Orthoepy, and the difficulties of Pronunciation.

2. *History.*—To be acquainted with all the historical sketches contained in the Lesson Books, and in the Introduction to Geography and History.

3. *Writing and Spelling.*—To be competent to superintend the writing of the junior classes, and to write in a good current hand, and with correct spelling, the substance of a short lesson, read slowly to them twice over.

4. *Arithmetic.*—To be acquainted with Mental and Commercial Arithmetic, and with Involution and Evolution, as contained in the Board's Treatise.

5. *Grammar.*—To parse and analyze any passage in prose, selected from the National Lesson Books.

6. *Geography.*—To know the General Geography of the remaining great divisions of the Globe, and be familiar with the principles of Physical Geography, as given in the Geography Generalized and the Fifth Book of Lessons.

7. *Book-keeping.*—To have the first four sets contained in the Board's Treatise on Book-keeping, neatly written out, and to answer explanatory questions thereon.

8. *Geometry.*—To know the First Book of Geometry with the exercises thereon, as given in Thomson's Treatise.

9. *Algebra.*—To be acquainted with the elementary rules of Algebra.

The Girls will not be required to know Book-keeping, Geometry, or Algebra, and in Arithmetic their course this year will be limited to Fractions and Interest.

10. *Art of Teaching.*—To examine the Third Class in Grammar and Geography, as well as Reading and in the explanation of Words, and to teach Arithmetic to the junior classes.

11. *Needlework.*—Girls to exhibit some skill in the finer kinds of knitting and netting.

Appendix A.

VI. Rules and Regulations as to Appointment, Examination, and Classification of Teachers, Monitors, &c., &c.

FOURTH YEAR.

At the end of the Fourth Year they will be required :—

1. *Etymology.*—To know the chapter on English Etymologies in the Spelling Book Superseded.

2. *Grammar and Composition.*—To write grammatically, and with correct spelling and punctuation, the substance of a lesson selected from the Third or any previous Book ; and to parse any passage in blank or other verse.

3. *Geography.*—To be acquainted with the Geography of the British Empire, and of Palestine.*

4. *Geometry.*—To know the Second Book, and the exercises appended thereto.

5. *Mensuration.*—To know the rules for the measurement of Plane Surfaces, and the principles on which these rules depend.

6. *Algebra.*—To be able to solve questions in simple equations.

7. *Natural Philosophy.*—To exhibit acquaintance with the Lessons contained in the third, fourth, and fifth sections of the Fifth Book.

8. *Lessons on Reasoning.*—To be examined on the first eight Lessons in the easy Lessons on Reasoning.

The Girls will not be examined in Algebra, or in the fourth and fifth sections of the Fifth Book ; nor in Geometry, Mensuration, or the Lessons on Reasoning ; but they will be examined in Mental Arithmetic, and required to exhibit such acquaintance with the Elements of Book-keeping as would enable them to keep with neatness and correctness simple Domestic Accounts.

9. *Art of Teaching.*—To instruct in their respective books each of the first three classes in any lessons selected by the District Inspector, and to examine them on the various collateral questions arising out of these lessons.

10. *Needlework.*—Girls must not only know, but be able to teach others also, how to cut out and make up plain articles of female wearing apparel.

11. *Agriculture.*—The Male Monitors will be examined, at the end of the fourth year, in the Agricultural Class-Book sanctioned by the Board.

Salaries.

For the First Year, . . .	£4.
For the Second Year, . . .	£5.
For the Third Year, . . .	£7.
For the Fourth Year, . . .	£8.

1. The number of Paid Monitors is limited to eight males and four females in each District, selected from among the best Pupils in the National Schools, and appointed upon the

* The geographical examination of the Paid Monitors this year will have a special reference to the mutual dependence and intercourse of Nations, their natural products, manufactures, &c., and the nature of the commercial relations between them and the United Kingdom.

recommendation of the District Inspectors, subject to the approval of the Commissioners.

2. This appointment cannot be held for a longer period than FOUR YEARS, at the expiration of which the salary will be discontinued.

3. The Salary may, however, be withdrawn at any time, should want of diligence, efficiency, or good conduct on the part of the Monitor, or any other circumstance, render such a course desirable.

4. The District Inspector selects the Schools to which Paid Monitors should be appointed; and when vacancies occur, whether before or after the expiration of four years, it does not necessarily follow that a successor shall be appointed in the same Schools.

5. When all the District Model Schools are established, Candidates for the office of Paid Monitor must undergo a Public Examination by the Inspectors, in a prescribed course, to be held in those Schools.

6. The selection will be made, as far as possible, from those who have shown aptitude for teaching.

7. The Candidates should not be under fourteen nor over sixteen years of age. They must be of a sound and healthy constitution, and free from any physical defect likely to impair their efficiency as Teachers.

8. The School to which the Candidate belongs should exhibit a tolerable degree of efficiency, should have a sufficient average attendance to require a Paid Monitor, and the Teacher should be qualified to give instruction in the prescribed course.

9. The Paid Monitors' Programme can be obtained on application to the District Inspector.

10. Paid Monitors who have completed the four years of their course in a satisfactory manner, are eligible, on examination by the Inspectors, for the situation of Assistant-Teacher, or of Pupil Teachers in District Model Schools.

WORKHOUSE SCHOOLS.

Scale of Gratuities to Masters and Mistresses of Workhouse Schools.

1. The Commissioners of National Education have resolved, with the concurrence of the Poor Law Commissioners, to award annual gratuities to a certain number (forty males and forty females) of the Teachers of the Workhouse Schools, in connexion with the National Board, who shall be recommended by the District Inspectors.

2. The gratuities are divided into two classes:—

For Male Teachers,	First Class,	. Twenty at £6 a-year each.
	Second Class,	. Twenty at £4 a-year each.
For Female Teachers,	First Class,	. Twenty at £5 a-year each.
	Second Class,	. Twenty at £3 a-year each.

APPENDIX. A

VI. Rules and Regulations as to Appointment, Examination, and Classification of Teachers, Monitors, &c., &c.

3. The payment will be made half-yearly, with the usual issue of Salary to Teachers of National Schools, after the 31st March, and 30th September, in each year.

4. It is to be understood that such gratuities are given in *addition* to the Salaries paid to the Teachers of Workhouse Schools, under the provisions of the Poor Law Act.

5. No Teacher is precluded from receiving the gratuity two or more years in succession, if recommended by the District Inspector as deserving of it; but a Teacher having received one year's gratuity, is not thereby *entitled* to a continuance of it.

PREMIUMS TO TEACHERS FOR ORDER, NEATNESS, &c.

Scale of Premiums to Masters and Mistresses of National Schools who are most distinguished by the Order, Neatness, and Cleanliness observable in themselves, their Pupils, and in the School-houses.

1. The sum of £22 10s. will be allocated to each of the School Districts, and divided into Thirteen Premiums.

One of £4, ...	£4
Two of £3, ...	£6
Five of £1 10s., . . .	£7 10s.
Five of £1, ...	£5

2. These Premiums will be awarded ANNUALLY on the recommendation of the District Inspector, and paid at the end of the year.

3. No distinction is made between Vested and Non-Vested Schools.

4. No Teacher is eligible for these Premiums for more than two years in succession.

5. These Premiums will be awarded without reference to the class in which the Teachers may be placed; but none will be deemed eligible to receive such Premiums against whom there is any well-founded charge of neglect in the performance of their duties, of impropriety in their conduct, or whose Schools are not conducted in a satisfactory manner.

VII.

VII. Notice to Managers of National Schools relative to Payment of Teachers' Salaries.

NOTICE to MANAGERS of NATIONAL SCHOOLS relative to the PAYMENT of TEACHERS' SALARIES.

The Managers of National Schools are particularly requested to attend to the following Instructions respecting the payment of Salaries to Teachers, as the Commissioners for Auditing the Public Accounts will not, in future, allow any documents to pass as Vouchers from this Office which are not in compliance with these Rules:—

1. Every Receipt should be signed by the Manager, and by the Teacher entitled to receive the amount of Salary therein specified.

APPENDIX A.

VII. Notice to Managers of National Schools relative to Payment of Teachers' Salaries.

2. Whenever a Manager advances money to a Teacher on account of the Salary payable by the Commissioners of National Education to such Teacher, he should *take a Receipt* for the same (on a Stamp if the amount be £5 or upwards), in order to have a proper Voucher to produce to this Office in case the Teacher die, or leave the School before the expiration of the Quarter.

3. If a Teacher die to whom any Salary is due by the Commissioners, the amount will be paid to the representative or next-of-kin. The relationship of the party paid must, however, be stated in the Receipt; and if such party cannot write, his or her mark will be received as signature, if witnessed by a third person.

4. If a Teacher leave a National School, and authorize the Manager, or some other person, to receive the Salary due from this Board, such authority must be given in writing, or the amount will not be paid. A Manager can always protect himself by attending to Rules Nos. 2 and 7.

5. As the Commissioners of Audit do not consider a Certificate of payment coming from the person who makes such payment a proper Document, no Manager's Certificate can in future be taken as a Voucher.

6. If Receipts which are sent from this Office for Signature, be not returned within a Month, the amount of Salary to which they refer will be cancelled, and remain over until the next quarterly payment becomes due. This rule will in future be strictly adhered to, in consequence of the inconvenience arising from such delays.

7. The Commissioners do not pay Salary for a broken period of a month, nor will they in future pay any Teacher a Month's Salary unless he shall have been in charge of the School for at least two-thirds of the month. Managers should, therefore, take care not to allow Teachers to leave their Schools before the last week of the month.

II. Returns from District Inspectors relative to the Religious Denominations of Pupils.

No. 1.—Return from Inspector of District 1, relative to the Religious Denominations of the Children attending the National Schools in his District, which comprises a portion of the County Donegal.

Ramelton, June 21, 1852.

Gentlemen,—In reply to your letter of the 5th of April, I beg leave to state, that upon strict investigation, I find there are but few schools in my district which do not furnish fair and satisfactory specimens of a mixed attendance of children of different denominations.

With but one exception, I have found the attendance is mixed in proportion to the population.

That exception is Letterkenny Male and Female School, where the scholars, teachers, and manager profess the Roman Catholic religion.

My opinion is, that it arises, not from any opposition given by the Church clergyman, but because it happens here that the persons belonging to the Established Church form the more respectable class, and, therefore, are unwilling to allow their children to mix with the children attending these Schools; but whatever the reason, this is the only exception of all I have examined, where the National System is not carried out on the united principle.

I do not think it necessary, therefore, to include in the subjoined table the names of *all* the Schools where I have found the scholars mixed in proportion to the population. I send the accompanying twelve, as *fair* examples of the working of our system, trusting that that number will be sufficiently adequate. If, however, it be not, I can, in a very short time, send a larger number.

In the accompanying form I have given the information you required—the number on the rolls, the religion of the managers, teachers, &c., and, in addition, the number of children capable of attending any school within a circuit of *one* mile.

I consider this distance affords a number sufficiently accurate to prove what I have already stated, "that the number of children in attendance is mixed in proportion to the population."

The statistics regarding the population I obtained from the master of each of the schools; and being persons of long residence, generally, in the country, they can vouch for the accuracy of the numbers.

In the case of Newtowncunningham, Carrickascanlan, Legnahoorey, &c., it appears there are a greater number of children of the Established Church in the vicinity of the schools than appears on the rolls; but the teachers of these schools state, that a part of these attend no school, being either employed by their parents, or unwilling to come on account of poverty. These reasons will apply to the discrepancies as shown in the columns headed Roman Catholics and Presbyterians. The last reason, will especially apply to the Roman Catholics, as they are for the most part through this county very poor.

I have the honour to be, Gentlemen, your obedient servant,

R. ROBINSON,

Sub-Inspector.

Appendix B.

II. Returns from District Inspectors relative to the Religious Denominations of Pupils.

Londonderry, May 1, 1852.

Gentlemen,—The Commissioners of National Education being desirous of ascertaining to what extent the National system is carried out upon the united principles in this district where the population is composed of various religious denominations, I have selected 38 schools in the counties of Donegal and Derry, which afford a fair specimen of a mixed attendance of children of different creeds.

As I think it better to give the existing state of the schools, I have copied the names from the rolls, for the quarter ending in April, 1852, noting the numbers of the different creeds and the parish population, as found in the "Parliamentary Gazetteer," in a line with the different creeds in attendance, that the ratio in each parish may be easily perceived.

The rule of the Board which prohibits the celebration of public worship in the school-houses has prevented the Wesleyan Methodists and many members of the Established Church in this district from connecting their schools with the National Board.

I am, Gentlemen your obedient servant,

R. Nesbit,

Inspector.

The Secretaries, Office of Education,

II. Returns from District Inspectors relative to the Religious Denominations of Pupils.

No 3.—Return of Inspector of District No 3, relative to the Religious Denominations of the Children attending the National Schools in his District, which comprises portions of the counties of Antrim and Londonderry.

Coleraine, April 20, 1852.

Gentlemen,—In obedience to yours of the 5th instant, I send herewith a return of 21 schools selected from those portions of this district where there is the greatest mixture of creeds in the population, and where respectively the majority is of the Established Church, Roman Catholic, or Presbyterian denomination. I have gone back upon the past year, taking those two periods when the attendance is greatest, viz., midsummer and midwinter. It will be found that the mixture of the different creeds in attendance is a fair representation of the mixture of the population. I hold in my hand 15 additional returns, in which the attendance is more or less mixed; but as the population and, consequently, the attendance, is nearly all of one denomination, I have thought it unnecessary to forward them. I am convinced that there is not a school in this district, nor in any of the districts with which I have had hitherto official connexion, in which it will not be found that the mixture of creeds in attendance is a fair representation of the mixture of the population. I am also of opinion, founded upon experience, that a well appurtenanced and well administered National School, will, in every instance, and in every locality, put down every other school for the poor in its vicinity, of whatsoever kind, unless some unusual local effort or endowment be made to sustain them.

I am, Gentlemen, your obedient servant,

A. T. Osborne,
District Inspector.

Education Office, Dublin.

No. 4.—RETURN from INSPECTOR of DISTRICT 4, relative to the Religious Denominations of the Children attending the National Schools in his District, which comprises a portion of the County Antrim.

Ballymena, June 12, 1852.

GENTLEMEN,—In compliance with your letter on this subject, I forward herewith a list of 30 Schools in my District, giving the relative proportions of the different religious denominations. I have also given brief explanatory remarks as the cases seemed to require. I beg to say that the cases are by no means selected, but that at least three-fourths of them have fallen under my notice in my ordinary routine of visits since I received your instructions.

I remain, Gentlemen, your very obedient servant,

II. Returns from District Inspectors relative to the Religious Denominations of Pupils.

No. 6.—RETURN from INSPECTOR of DISTRICT 6, relative to the Religious Denominations of the Children attending the National Schools in his District, which comprises portions of the counties of Londonderry and Tyrone.

Newtownstewart, June 10, 1852.

GENTLEMEN,—In compliance with your instructions of the 5th April, I beg to submit the following return of the National Schools in this District, which seem to me to afford the best specimens of a mixed attendance of children of different creeds. In each case, so far as I can learn, the attendance at the school is mixed in almost exact proportion with the population in the neighbourhood.

The first school on my list, Dromard, was, for some time after its connexion with the Board, supported, for the most part, by Presbyterians, and opposed by parties of other persuasions. The opposition has now ceased. The following particulars, however, may not be out of place here, as they serve to show how the practical working of the National System of Education came to be gradually felt and appreciated by all the religious denominations in the locality.

I am, Gentlemen, your obedient servant,

JOHN WALKER RODGERS.

No. 7.—Return of Inspector of District 7, relative to the Religious Denominations of the Children attending the National Schools in his District, which comprises portions of the counties of Fermanagh and Tyrone.

Appendix B.

II. Returns from District Inspectors relative to the Religious Denominations of Pupils.

Omagh, June 7, 1852.

Gentlemen,—According to the instructions contained in your letter of the 5th April last, I beg leave, after a careful inquiry throughout the district, to forward you a list of the National Schools affording the best examples of education upon the united principle. In submitting this return, I beg to make a few remarks in reference to the working of the National system in those parts of Ireland with which I have been connected.

I was appointed to the situation of District Inspector in September, 1848, and since that date I have visited schools in the counties of Monaghan, Armagh, Tyrone, and Fermanagh. As a general rule, I found in those parts that I have visited, that where the population was composed of persons of different creeds, there the schools were mixed in nearly the same proportion, it making a matter of but little consequence to what body of Christians the Master belonged, provided he was a person of good moral character, and abstained from tampering with the faith of those who differed from him in religion. This, in fact, is the description of teacher that the people like, and none but a teacher of this class could possibly give satisfaction to all parties. In every locality that I have visited, I have invariably found, that in whatsoever school the best education is given, there the great bulk of the people send their children. It is thus appreciating the education given in the National Schools that has caused many parents to send their children to those schools, notwithstanding the active opposition of many of the Protestant clergy. It is, indeed, altogether owing to the superiority of the National system above every other system of education that a mixed attendance of pupils, in some districts, has been secured. In localities in which there are Church Education Society Schools, as well as schools supported from private sources, where sometimes the encouragement held out to those that attend them is very great, even in those very localities, many parents have found it both their interest and advantage to send their children to the National Schools.

It is in places where the Clergymen of the different denominations are agreed upon the subject of education that the National system works best. Children of all religious persuasions receive an education in common, are brought up in harmony together; and while an affection and a regard are thus being formed by the youth of a neighbourhood at school—and which, it is more than probable, will remain during life—their parents, at the same time, have the satisfaction of mind, that by sending their children to the National School, they do not incur the displeasure of their respective pastors. The youth of a neighbourhood, province, or country,

APPENDIX B.

brought up in this manner, could not fail to be good and loyal subjects, industrious, useful to society, contented, and happy.

During the few years that I have been labouring among the National Schools as Inspector, I have had a good deal of experience among the rich, as well as among the poor. I have had occasion to call upon noblemen, gentlemen, clergymen of all denominations, farmers, and even the agricultural labourer, who earns his bread by his hard daily toil. While in company with these different persons, the National system of education has often been made the subject of conversation, and I can confidently state, that, with some few exceptions, all, from the highest to the lowest, expressed their approbation of the system, as being the best suited to the wants of this country. The poorer class, to whom its benefits are more immediately extended, feel most grateful to the Board and the Government for the very great pains and trouble they have taken to educate their children; the gentry, too, have frequently told me, that they did not know any scheme the Government could devise that would be so instrumental in bettering the condition of the people of Ireland. Even among the clergy of the Established Church, I have met but few who *directly* expressed to me their disapproval of the system, and I find that their opposition to it is every day becoming less.

There is one circumstance which I conceive to be in some measure connected with this subject, and which I, therefore, consider it but right to mention, viz.: previous to my appointment to the situation I now hold, I had charge of the Constabulary school, Phœnix Park, for a period of nearly six years. This school was established by Sir Duncan MacGregor, Inspector-General of Constabulary, immediately after the formation of the depot, for the improvement of the education of the Constabulary Force. Among other members of this force there were required to attend the school all recruits, young men from every county in Ireland. The average number of recruits summoned to the depot each month was from 80 to 100. These all attended the depot school for about the period of four months. No recruit was admitted into the force who could not read fluently, and write fairly from dictation. As these were young men of different religious denominations, and from almost every educational establishment in Ireland, I had ample opportunity of judging the relative merits of the different systems of elementary education then in the country; and, I can assert, without fear of contradiction, that, with a rare exception, the young men who had been brought up at the National Schools were the best educated, the most intelligent, and always evinced both a readiness and a willingness of disposition to execute the orders given them by their superiors.

On this point I would further observe, that the officers I had the honour to instruct often remarked to me, that there was a better practical education given to the pupils attending

APPENDIX B.

II. Returns from District Inspectors relative to Religious Denominations of Pupils.

the National Schools than they had themselves received, though gentlemen, and had been at schools of the highest character in the country.

In conclusion, I would observe, that the great majority of the laity of every religious denomination in this part of Ireland highly approve of mixed education, according to the principles of the National system. They are confident that parental authority is respected and supported; that no unfair means are permitted to be used, to cause any child to turn aside from the faith of its parents; and that arrangements are made for the religious instruction of all. Under these favourable circumstances, parents willingly and gladly send their children to the National Schools; and it only requires, to a greater extent, the co-operation of the clergy of the different denominations to increase the good results of such a system of education, and continue to make it, what it has hitherto proved to be, a blessing to our land.

I now proceed to give a list of the schools, &c.:—

II. Returns from District Inspectors relative to the Religious Denominations of Pupils.

No. 8.—Return of Inspector of District 8, relative to the Religious Denominations of the Children attending the Schools in his District, which comprises a portion of the Counties of Donegal and Tyrone.

Donegal, April 10, 1852.

Gentlemen,—In compliance with your instructions of the 5th instant, I beg to state that I have not thought it necessary to consult any of the Managers, in order to give you the information you require. Owing, however, to the changes made in the districts some time since, I am not as familiar with all my schools and their working as I could wish; but I am of opinion the subjoined information, taken from my note-book, will be found pretty correct. Of 54 schools, in which I have asked questions similar to those you have now asked me, I make you a statistical return of 33. In one, the children were exclusively Protestants; and in the remaining twenty exclusively Roman Catholics.

In my whole district there are only three houses of worship belonging to the Presbyterians; hence the small proportion of that persuasion attending the National Schools. There is only one Presbyterian Manager.

In reference to the schools mentioned in this report, I may add, that I consider the attendance of pupils of different creeds almost in proportion to the families who reside in the neighbourhood of the school. In many parts of this district the population is almost all Roman Catholic, and in parts where there are a few Protestant families, there is generally a Church Education School. I have found, however, that if the parents acted according to their wish, they would continue to patronize the National Schools in preference to any other.

I have generally found that a school conducted by a zealous, conscientious, and efficient Teacher, has been attended by the pupils of the various persusions in the locality, in proportion to their respective numbers. In such cases, also, I have found that the Teacher, almost invariably, has Saturday set apart for "Religious Instruction;" and he believes the people, in general, are much better satisfied, and have a surer guarantee against interference in religion. Teachers do not like separating the pupils in a school-room, or sending one part home, and retaining the other.

In the following table you will observe that 23 of the schools have Managers and Teachers of the same religious persuasion, and in 10 they are of different creeds; and in all those where the pupils are exclusively of one denomination, the Patron and Teacher are the same.

At present my notes do not furnish me with any other mixed schools, but I have little doubt there are many more in my district which I have not yet been able to register, since the change of districts was effected in January last.

I have the honour to be, Gentlemen, your obedient servant,

John Carlisle, District Inspector.

The Secretaries, Education Office.

II. Returns from District Inspectors relative to the Religious Denominations of Pupils.

No. 10.—RETURN of INSPECTOR of DISTRICT 11, relative to the Religious Denominations of the Children &c., attending the Schools of his District, which comprises portions of the Counties of Armagh, Down, and Tyrone.

Dungannon, June 11, 1852.

GENTLEMEN,—In reply to your letter of the 5th of April last, I have to say, that after careful inquiry, I find that the principle of united education is fully carried out in all the schools in my district, except a few situated in large towns, and in localities in which the population is exclusively of one denomination. I herewith forward a list of 72 schools in which the attendance of the children of the different religious denominations is in proportion, or nearly so, to the population —above 30 of the Schools are situated in localities in which the population is exclusively, or almost exclusively, of one denomination. From a number of Schools in which the attendance is mixed, I have not yet been able to procure the exact number of the children of the different creeds attending.

I am, Gentlemen, your obedient servant,

THOMAS M'ILROY,

District Inspector of National Schools.

The Secretaries,

Education Office.

No. 11.—Return of Inspector of District 12, relative to the Religious Denominations of the Children attending the National Schools in his District, which comprises a portion of the County of Down.

Appendix B.

II. Returns from District Inspectors relative to the Religious Denominations of Pupils.

Newtownards, May 10, 1852.

Gentlemen,—In compliance with the request in your letter of the 5th ult., I forward the accompanying Table, exhibiting fully the extent to which the National System of Education is carried out upon the united principle in this district. I have given the statistics of every school (except six, from which I have not been able to obtain them completely) in order to afford the most perfect exhibition of the satisfactory working of the National System, in regard to united education in a district whose area is almost 400 square miles, and whose population for the last 20 years has been, with little variation, close upon 150,000, and in which the several religious bodies are largely represented.

My district comprises the baronies of Ards, Lower Castlereagh, Upper Castlereagh, Dufferin, and Lecale, in the county of Down. Its area is 253,781 acres, and its population in 1831 was 147,847, and in 1841, 147,880 souls. It contains 141 National Schools.

In the Table the following details are given :—

I. Parishes in which there are National Schools.

II. Proportions of the several religious sects in each parish, calculated from the Report of the Commissioners on Public Instruction in 1834, which, so far as I can learn, as fairly represents the proportions of the different sects now as it did then.

III. Names of all National Schools in each parish.

IV. Religious denominations of the Patrons who are not, at the same time, Managers of National Schools.

V. Religious denominations of the Managers.

VI. Number of each denomination in Committee of each School that has a Committee.

VII.–X. Religious denomination of each Teacher, Assistant, Workmistress, and Monitor.

XI. Number of Pupils of each religious denomination on the books of each school at a specified date.

XII. (Under II.) § Thus marked are the proportions of the several religious sects amongst the pupils in all the National Schools in each parish.

No. I. includes all the parishes within the bounds of the district, except the small ones of Ballytrustan, Slanes, and the Castlereagh portions of Drumbeg and Lambeg, in which there are no National Schools. The population of these parishes, however, is reckoned in the calculation of the totals.

No. VI. is imperfect in regard to 17 Schools, of the constitution of whose Committees I am not informed. It is correct, however, in regard to 58 Schools. The remaining 66 have no Committees.

APPENDIX B.

II. Returns from District Inspectors relative to the Religious Denominations of Pupils.

The dates on which the specified number of scholars were found on the books of the schools necessarily extend over a period of fifteen months; but I have no doubt that the proportions would not have been different, and that the total numbers would have varied little had these statistics been collected on any one day within that period.

Following the statistics of the parish of Newtownards will be found those of the Newtownards Poor Law Union National School, and the totals of those of the other National Schools within the limits of the Poor Law Union. The numbers in that line are not added in with the rest at the foot of the Table. The only other Poor Law Union School in the territory which composes this district (that of Downpatrick) has not been placed under the Commissioners of National Education.

The following Synoptical Tables show the state of the district as a whole, in respect of united education in National Schools.

The great majority of the population (Presbyterians), approving heartily of the National System, avail themselves of it to the utmost extent. The next most numerous portion of the people, the Roman Catholics, largely take advantage of it, although not so largely as the Presbyterians, their less independent circumstances obliging them to labour in order to contribute by their earnings to the support of their families, depriving them of the ability to pay the fee which is almost universally demanded in the National Schools in this district, and placing them more under the control of the wealthy and powerful Patrons of Schools of a Society one of whose "fundamental laws" is that "no child shall be excluded on account of the inability of its parents to pay for its instruction." The proportion of children of the Established Church attending the National Schools is large compared with the ratio of

APPENDIX B.

Churchmen of the middle and poorer classes to the total numbers composing those classes in this district. The disparity in the case of other Protestant Dissenters is only apparent, not real, for the Report of the Commissioners on Public Instruction returns as Dissenters several Presbyterian congregations which are not synodically connected with any of the great bodies denominated Presbyterian, whereas all the children of those congregations are reckoned, in my Table, as Presbyterian pupils. The actual proportion of Protestant Dissenters, not Presbyterian, to the whole population is less than one to a hundred.

These remarks apply not only to the district, as a whole, but, as will be seen from reference to my principal Table, to almost every school in it, about which there is a mixed population. In every locality in which there is not strenuous party opposition exercised against it, a National School that is ordinarily well conducted is sure to be well attended by children of all the religious denominations in the neighbourhood. To show as completely as possible the diversity of sects attending the schools, I have distinguished Unitarian (non-subscribing) Presbyterians from Trinitarians, (those whose ministers subscribe to the Westminster Confession of Faith). Distinguishing these five religious denominations, viz., the Established Church, Roman Catholic, Trinitarian Presbyterian, Unitarian Presbyterian, and Dissenter :—

Of the 36 Schools in which there are pupils of two denominations, in 14 they are the two sects of Presbyterians ; in 11, Presbyterians and Roman Catholics ; in 6, Established Church and Presbyterians ; and in 5, Established Church and Roman Catholics.

Patrons, who are not also Managers, being, for the most part, landlords, are nearly all members of the Established Church. In most Schools under Presbyterian management Committees take the place of Patrons, and several of these Committees are of mixed creeds.

Of Managers of National Schools, members of the Established Church are considerably more numerous, Roman Catholics considerably less numerous, and Presbyterians somewhat more numerous than the ratio of their churches to the whole population of the district.

Of Teachers, the ratio of members of the Established Church to the whole number of Teachers is somewhat below that of Churchmen to the population, and considerably above the ratio of Pupils of the same communion : the ratio of Roman

Catholic Teachers is below both the ratio of Roman Catholics in the population and in the Schools: Presbyterians somewhat above their ratio to the population, and equal to the ratio of Presbyterian pupils.

No. 12.—RETURN of INSPECTOR of DISTRICT 14, relative to the Religious Denominations of the Children attending the National Schools in his District, which comprises portions of the Counties of Armagh and Monaghan.

Monaghan, April, 28, 1852.

GENTLEMEN,—I have now the honour of submitting a list of a few schools, with the information required by your communication of the 5th instant. While these schools furnish a good specimen of mixed education, they have not been selected as affording "*the best*," but because they come more directly in my way while proceeding in my regular course of inspection.

I beg to add, that where the state of the population rendered

carried out on the united principle in District 12 (Newtownards)—*continued.*

it possible, and notwithstanding several opposing causes, I have always considered that in the *three* districts in which I have been employed the objects of the Board, in this respect, have been fully attained.

I will continue my inquiries in the course of my visits, so as to enable me to furnish full information in all cases if required.

I am, Gentlemen, your obedient servant,

APPENDIX B.

II. Returns from District Inspectors relative to the Religious Denominations of Pupils.

No. 13.—REPORT upon the SCHOOLS in DISTRICT No. 15, which comprises portions of the Counties of Cavan and Monaghan, showing the religious denomination of the Manager, Teacher, Workmistress, and Paid-Monitor, the per centage of persons of various creeds in the vicinity of,—with the numbers respectively attending each School, by EUGENE A. CONWELL, Inspector of National Schools.

Bailieborough, 29th May, 1852.

GENTLEMEN,—With a view to ascertain how far the *united* principle has been carried out in the several schools in this district, I forwarded, a few weeks ago, statistical forms to be returned to me from each of the schools embraced in my circuit of inspection; and from these returns certified by the Managers, I have been enabled to transmit for the information of the Commissioners the accompanying tabulated view of the district.

An examination of the particulars detailed in the several columns will show the religious denomination of the Manager, Teacher, Workmistress, and Paid Monitor in each school; of the children on the rolls on 31 March last; the numbers respectively that were members of the Established Church, Roman Catholics, Presbyterians, and other Protestant Dissenters; and of the population of the locality in which each school is situated, the relative proportions *per cent.* of persons of different religious denominations.

I have not called for returns from the four Poor Law Union National Schools inspected by me, viz. :—Bailieborough, Carrickmacross, Cootehill, and Clones, because, although the children at these schools are of different religious communions, their *attendance* is not, as at ordinary National Schools, the result of *preference*, but of necessity. Four of the schools on the roll of the district are in progress of building, and not yet in operation, two closed, and from thirteen I have had no returns; so that the following sheets contain only the statistics of 117 National Schools, out of 140 in District No. 15, on 31st March last.

In 39 cases it will be seen that the Manager and Teachers, are of different religious denominations; that there are only nine schools which have no mixed attendance; easily accounted for by a reference to the columns detailing the population; that even in four out of these nine cases, the Manager and Teachers do not belong to the same religious communion; and that in the remaining 108 schools the children of different religious denominations attend, and fully in proportion to the relative per centages of persons of various creeds in the vicinity of each school.

A close scrutiny of the tabulation will prove the best commentary on *united* education, and cannot fail to be to the Commissioners and all others interested in the permanency of the present system, a most gratifying illustration of its success, as it will show by the unreserved attendance of all sects at

APPENDIX B.

the schools, how truly they appreciate the wisdom of the Board, which, recognizing the fact, which is beyond its control, that the population of this country is made up of persons of different forms of faith, affords the means of secular education to all alike; whilst forbidding the scruples or faith of any to be offended, it allows each sect to give what religious instruction it chooses to its own followers.

I have the honour to be, Gentlemen, your obedient servant,

EUGENE A. CONWELL.

The Secretaries, Education Office.

On the RETURNS forwarded to me, in a column left for the Manager of each school to state if there be any circumstances, in his opinion, which may have conduced to, or prevented, an attendance of children of different religious denominations, the following observations are made with reference to the attendance at the Schools hereinafter named:—

BARONY OF CLANKEE, COUNTY CAVAN.

Ardmone National School.—"Members of the Church of England, and of the Presbyterian Church, form a majority of the population of the immediate vicinity; but I am not aware of any objection on the part of Roman Catholic parents against united education in the National Schools."

Begliff National School.—"I know of none, except the working of the system of National Education being acceptable to all classes of religious denominations."

Crocknahatna National School.—"There are many circumstances that might be mentioned, which have contributed to produce the above mixed attendance. First, all denominations in this locality are satisfied that just and sufficient attention has been paid in this school to religious instruction; they also seem sensible of the superior quality of the National School books, and of the many advantages derivable from a well conducted National School."

Corlatty Carroll National School.—"In my opinion, it is the education which they get from the several National School books, together with the united system of National Education being acceptable to each of the classes of the different religious denominations."

Cullies National School.—"I believe that all denominations having perfect reliance on the master, is the occasion of so large an attendance of Protestant children at his school, which reliance has been caused by his impartial and upright conduct in every respect."

Dromecarrow National School.—"The children of the several religious denominations unite in the secular education of the school, without, as far as I am aware, a single exception. The clergymen of all denominations unanimously advocate *combined education.*"

APPENDIX B.

II. Returns from District Inspectors relative to the Religious Denominations of Pupils.

Drumbinnis National School.—"Nothing, except the religious liberties which the system affords to those who are taught under it."

Galboly National School.—"No circumstance, in my opinion, has conduced to an attendance in this school of either sect of children, beyond the system of teaching adopted in the National Schools."

Grahitta National School.—"The impartiality of the system administered by the Board, and carried out by the Teacher of the school."

Knockbride National School.—"I know of none except the education afforded to them from the several National School books, and the liberty which the system guarantees to persons of all religious denominations."

Knappa National School.—"I think that carrying out the rules of the Board fairly has been an inducement."

Latchey National School.—"The Clergymen of the Established Church gave, at first, decided opposition, by preaching against the National Schools and Board, and by setting up a school under the Church of England, which school is now a nonentity; and the population of the several religious denominations harmoniously unite in the secular education of the school."

Lear National School.—"This school is situated in the centre of a Presbyterian district; and the few families of other religious denominations have at all times cordially united with them in the secular education of the school."

BARONY OF CASTLERAGHAN, COUNTY CAVAN.

Carrygorman National School.—"*First*, the wish they have for the National School books, being much superior in information to all others. *Second*—the historical parts of the Old and New Testaments and Catechism being taught. *Third*—the neatness and order in which the school is conducted."

Copponaght National School.—"In the neighbourhood immediately adjoining this, part of which, in point of distance, might be added to this district, there is a much larger proportion of the population Episcopalians and Presbyterians, and in which other schools, not under the National System, are established."

Cullow National School.—"For the last few years, the parents of the children of the Established Church who were in attendance prefer the instruction received in the National School to that of other schools in this locality."

Castleraghan National School.—"I am of opinion, that if the resident Protestant clergyman did not interfere, the parents would gladly avail themselves of the advantages of the National School."

Lehary National School.—"The superiority of the education received is the only circumstance."

Virginia National School.—"I am certain that a much greater portion of those on the rolls would have been of the

Established Church, if it were not for the interference of the clergy of said church, especially the curates, and some of the gentry, who took a very active part in preventing parents from sending their children."

Appendix B.

II. Returns from District Inspectors relative to the Religious Denominations of Pupils.

Barony of Tullygarvey, County Cavan.

Ahatotan National School.—"There is an 'Endowed School' in the vicinity, at which the Protestant children attend."

Cornakill National School.—"The Roman Catholics and Presbyterians have regularly sent their children to this school,—the parents belonging to the Established Church have not, there being Church Schools in the neighbourhood. There has been no interference in religion that could be complained of. The Teacher, I consider, has done his duty fairly for all."

Drung National School.—"There is nothing to discourage Protestant children from coming to this school, and many of them do attend, although there is a school under the Church Education Society convenient."

Drumlaney National School.—"In my opinion, all creeds in this locality are in favour of, and prefer National Education."

Kill National School.—"There is a school supported by the Established Church in the immediate vicinity."

Longfield National School.—"The Protestants have two other schools in the parish under the Church Education Society."

Lisboduff National School.—"The Protestants and Presbyterians do not come here, there being two Church Education Society's Schools convenient. The greater part of Protestant children attend those schools, as their landlords and ministers require."

Barony of Farney, County Monaghan.

Carrickmacross National School.—"The establishment of a *free* school in the town, in connexion with the Established Church, has, I believe, prevented the children of that church, Presbyterians, and other Protestant Dissenters, from attending the National School."

Corduff National School.—"I believe the establishment of a school at the Ardaragh Presbyterian Meeting-house to be the only cause of the non-attendance of more pupils of the Established Church, Presbyterians, and other Protestant Dissenters."

Coolfore National School.—"The erection and opening of an endowed school in the neighbourhood of this school I believe to be the principal, if not the only cause why children of different religious denominations from Roman Catholics have not attended."

Coolderry National School.—"There are no Protestants in the neighbourhood of this school, except, I may say, in my establishment or household."

APPENDIX B.

II. Returns from District Inspectors relative to the Religious Denominations of Pupils.

BARONY OF DARTRY, COUNTY MONAGHAN.

Aughadrumkeen National School.—"The excellence of the *system* of teaching has been, I consider, the special inducement to the attendance of children, and cannot fail to secure a union of parties wherever its benefits are felt."

Clinrigh National School.—"I know no other than the advantages of the system."

Classdough National School.—"Some slight objections exist on the part of the minister of the Established Church against the National System, which, I think, at present could not be removed."

Drumgarley National School.—"What, in my opinion, contributes most to a mixed attendance at the schools under my management—viz., Drumgarley, Dawson, Latnamard, and Tattenclave National Schools—is the absence of all religious discussion in connexion with them, and the strict observance of the rules of the Board, whereby the Teachers and Manager are strictly prohibited from tampering with the religious convictions of those children who differ from them in religion."

Killefargue National School.—"I know no other than the advantages of the system."

Killelina National School.—"None—excepting that it is conducted by a committee of laymen, composed of Episcopalians, Roman Catholics, and Presbyterians, and never interfered with by any of the clergy in the neighbourhood, which, in my opinion, has induced all persuasions to attend with alacrity."

Kirrenchego National School.—"The children of all denominations attend this School without any objection."

Largy National School.—"The Manager's non-interference in respect to religion, the conciliating manners of the Teachers, and their superior abilities as Elementary Teachers, have overcome every opposition."

Lismagonway National School.—"Nothing in particular except superior instruction."

Laurel-hill National School.—"No other circumstance, in my opinion, but the advantages of the system."

Magherarney National School.—"There are three National Schools in the vicinity under the management of Presbyterian Ministers, where there are some Protestant and Roman Catholic children. The one in Smithboro' is within one half mile of Magherarney. There is peace in all, and no attempt to interfere with any child's religion in any of the schools, as far as I ever knew. Parents send their children to the best Teacher, and the nearest school. I observed no other motive or feeling."

Stonebridge National School.—"There is no difference of opinion as to our system of National Education except what exists with, and is fostered by, the Established clergy. This does little harm: the question is, long since, settled with us—as far as the people are concerned. The ministers of the Estab-

lishment *cannot* influence their people to withdraw their children from our schools. We are all united, and I cannot imagine any system *more* likely to make us so. No *possibility* of proselytizing (neither is there a disposition) *only keep to the system of the Board.*"

APPENDIX B.

II. Returns from District Inspectors relative to the Religious Denominations of Pupils.

Granshaw National School.—"The choice of parents about the Teacher, and his care and abilities in advancing the children, are the only causes of attendance. There were three Schools in the townland, of the three parties; now two, one under the Presbyterian Minister, Rev. W. White, the other under my management, both National. They are and have been of different religions at each School, and at peace about religion."

II. Returns from District Inspectors relative to the Religious Denominations of Pupils.

No. 14.—RETURN of INSPECTOR of DISTRICT 16, of the Religious Denominations of the Children attending the National Schools in his District.

Carrick-on-Shannon, 28th June, 1852.

GENTLEMEN,—I beg to say I have not, as yet, sufficient knowledge of this District to furnish more fully than I have done, the particulars you require in your letter of the 12th instant.

On application to some of the Managers under whom I thought such Schools as those referred to may exist, the answer I received was, that returns to the same effect had already been furnished to the Board. There may, without my knowledge, be, in this District, other Schools, such as those referred to; if so, I shall be able to furnish a list of them in some little time, being about to make up, for Head Inspector Patten, returns from which I could derive such information. I did not wish further to defer a reply to your letter.

I have the honour to remain, Gentlemen, your obedient servant,

JOHN C. LANE.

No. 16.—RETURN from INSPECTOR of DISTRICT No. 29 of the Religious Denominations of the Children attending the National Schools in his District.

July 6, 1852.

GENTLEMEN,—In reply to your letter of the 12th ultimo, I enclose a list of the Schools in the district, with the number of children on the rolls, their religious denominations, &c.

I enclose also a separate list of the Schools which afford the best specimen of a mixed attendance.

I am, Gentlemen, your obedient servant,

F. F. O'CARROLL,
District Inspector.

The Secretaries.

Thus there are on the rolls of the 94 Schools in this District, which includes the greater part of the Queen's county and nearly half of the county Kildare, 10,476 Roman Catholics and 375 Protestants; or for every 4 Protestants there are 111 Roman Catholics.

There are 100 Schools in this District; but 4 of them—viz., Athy Male and Female Model Schools, Roskelton, and Oak—are not in operation, and the 2 Mountrath Schools have been too short a time in operation to be placed on the list; besides, all, or nearly all, on the rolls of the Mountrath National Schools, have been already given on the rolls of the Coote-street and Trummery Schools. In fact, should the Mountrath Schools succeed, all the Protestants will probably be withdrawn from the Coote-street and Trummery, as the Teachers in the Mountrath Schools are Protestants. Already the Protestant female children have been withdrawn from the Coote-street Female National School, and many of the boys of the Established Church from the Coote-street Male National School.

It will appear from the list, that in 44 of the 87 ordinary Schools, there are no Protestants on the rolls, and there are only 13 Schools in which the number of Protestants on the rolls amounts to 7.

In those 87 Schools there are 5 Teachers of the Established Church and a Workmistress of the same persuasion. All the other Teachers, Mistresses and Monitors, are Roman Catholics.

Among the Managers of the 87 Schools, there are 7 Protestants, who have charge of 12 Schools; 3 of the number are

clergymen of the Established Church, and one of the 7 belongs to the Society of Friends. Except those 7 all the Managers are Roman Catholics. 21 are Roman Catholic clergymen, having under their charge 76 Schools, including the Convent Schools.

APPENDIX B.

II. Returns from District Inspectors relative to the Religious Denominations of Pupils.

It also appears that the daily average attendance in the 87 Schools, as taken from the report books, is less than the actual number present on the days of inspection. This is a test of the correctness of those amounts, as the Teachers were not aware, except in a few cases, of the inspection day.

Observations on the Schools on this List.

The first 5 Schools, having on their rolls 124 Protestants, are in the parish of Clonenagh, of which Dean Kennedy is the Rector. 2 National Schools, with Protestant Teachers, were opened in Mountrath in October, last year, under the Dean's management; they were closed, however, in November, and reopened only last April. Since the reopening nearly all the Protestant children have ceased to attend the Coote-street National Schools, which are also in the town of Mountrath, but which are under Roman Catholic Teachers: there are thus Roman Catholic National Schools and Protestant National Schools in the same town. Trummery also will lose a considerable number of the Protestants on its rolls, as those who attend it are from the immediate neighbourhood of Mountrath.

Ballysax, No. 2.—Although it has 16 Roman Catholics on its rolls, their attendance has been prohibited by the Roman Catholic Bishop, and for the last 2 months the prohibition has been obeyed. It is now attended by the Protestant children only.

APPENDIX B.

II. Returns from District Inspectors relative to the Religious Denominations of Pupils.

In fact, the 12 Schools given as a specimen of a mixed attendance in this District may be reduced to 4, viz.:—

Ballyfin.—Upper Ballyfin and the Kilberry Schools, as in those Schools only there is a probability of a continuance of the mixed attendance to any considerable extent.

Ballyfin.—There are 19 families of the Established Church within 2 miles of this School. The Teachers and Managers are Roman Catholics. Dean Kennedy is the Rector.

Upper Ballyfin.—There are 13 families of the Established Church within a mile of this School. The Teacher and Manager are of the Established Church. Dean Kennedy is the Manager, and the parish priest has stated to me that as he was confident the Dean would not interfere with the religion of the Roman Catholic children, he was glad to have this School established in the parish.

Kilberry.—The Teachers and Manager are of the Established Church. The Rev. Mr. Cotton is the Manager.

Moyanna.—The children attending this School are all Roman Catholics, except 7, who are Presbyterians. The Manager is of the Established Church—the Teacher a Roman Catholic.

A LIST of the POST TOWNS in DISTRICT 29, with the number of Roman Catholics and Protestants on the Rolls of the 34 National Schools which are in those Towns. In this District there are 18 towns, viz.,—

	Roman Catholics.	Protestants.		Roman Catholics.	Protestants.
Mountmellick, .	144	–	Monastereven, .	305	3
Athy, . .	257	–	Newbridge, .	282	9

Clonaslee, . .	151	–		1,917	67
Ballyroan, . .	182	–			
	2,733	–			

Each town has a population of various religious denominations, and nearly in all considerably mixed. In each there is a National School; but on the rolls of the first ten towns there are 2,733 Roman Catholics and no Protestants, and on the rolls of the remaining 8 towns there are 1,917 Roman Catholic, and 67 Protestants, or 4,650 Roman Catholics to 67 Protestants on the National rolls of the 18 towns; and it appears that of the 67 there are 34 on the rolls of the Mountrath Schools. I have not placed the Poor Law Union Schools on this list, as they represent not towns merely, but large districts. In all those towns, except Mountrath, there are

also Schools under Protestant Teachers, supported by parochial funds, where no rates are demanded. The Protestant parents naturally prefer those Schools, as the Teachers are of their own persuasion, the education is without charge, and their children do not come in contact with the crowded and extreme poverty which at some seasons is to be found in National Schools.

APPENDIX B.

II. Returns from District Inspectors relative to the Religious Denominations of Pupils.

The poorhouses will show the comparative number of destitute Roman Catholics and Protestants in a district.

There are 3 Poor Law Union houses in this district, in the Athy Union Schools there are only 16 Protestants on the rolls, and in the Abbeyleix Union only 2, or but 18 Protestants on the School rolls of the 2 houses, which represent the poverty of two-thirds of the district. Round Athy and Abbeyleix, very few Protestants are compelled to seek workhouse relief, and very few either are to be found in the National Schools, which are within those Unions. But there are 48 Protestants on the School rolls in the Mountmellick Union workhouse; and, in this Union, is situated the parish of Clonenagh, in which 124 Protestants attend the National Schools.

However, in general, through the district, the Protestants can choose their School. With the Roman Catholics it is the National School or no School—they can support no other.

F. F. O'CARROLL,
District Inspector.

No. 17.—RETURN from INSPECTOR of DISTRICT 33, relative to the Religious Denominations of Children attending the Schools in his District.

Clonmel, August 2, 1852.

GENTLEMEN,—In obedience to your instructions of the 23rd ultimo, to which delay on the part of certain Managers of Schools has prevented me from giving an earlier reply, I enclose a return, stating the attendance of pupils of different creeds at those schools of my district where united education exists; and, at the same time, I beg to offer a few remarks on this subject.

I need scarcely remind you, gentlemen, that in my district, situated, as it is, in the centre of the south of Ireland, the vast majority of the people are Roman Catholics; and that in the greater number of the rural parishes there are no Protestants or Dissenters of the humbler classes, and that, therefore, united education cannot exist to any considerable extent in this district: indeed it is only in considerable towns, where persons of different creeds settle, that it could be expected at all. This explains why the return embraces so small a number of schools, and why the number of Protestant and Dissenting pupils in these is so small, compared with that of the Roman Catholic pupils.

From this return (wherever the number of persons of each creed in the parish where the school is situate has been given), it appears that, with the exception of one parish, the number of Protestant and Dissenting pupils in attendance at these

APPENDIX B.

II. Returns from District Inspectors relative to the Religious Denominations of Pupils.

schools exhibits a per centage on the total Protestant population of the locality or parish, higher than that which the Catholic children in attendance bear to the total Catholic population of the same locality or parish; and in the town of Clonmel, the attendance of Protestant and Dissenting pupils at the District Model Schools and Mechanics' Institute is eight per cent. of the total Protestant and Dissenting population, which is a large proportion, considering that there is a parochial school for the poorer Protestant children, also an endowed school, and several private schools, attended by the wealthier class of Protestants; which large attendance of the different creeds proves the confidence reposed by the public generally in the District Model Schools, and those other schools (such as the Clonmel Mechanics' Institute) which have been created by it, and imitate its practice as closely as possible. Indeed united education in Clonmel was created entirely by the Model Schools, as, until they were established, united education was unknown there.

The only exception in this district to the success of united education, wherever different creeds exist, is to be found in the parish of Cashel; but for what reason it seems to have failed there, I am unable to say, as I believe that the rules of the Board have been fully carried out in the several schools therein.

I am, Gentlemen, your most obedient servant,

E. S. CLARKE.

II. Returns from District Inspectors relative to the Religious Denominations of Pupils.

Clonmel, 7th August, 1852.

GENTLEMEN,—I enclose additional information, received this day, on the subject of united education.

It states the number of Roman Catholics, and of pupils of other creeds, attending at the Templemore National School (Male), and by it you will perceive that, as in the other schools of this district, wherever Protestants have attended, their number bears a higher average, or rather per centage, on the Protestant population of the parish, than that of the Catholic children, compared with the total number of the Catholic population.

I have the honour to be, Gentlemen, your most obedient servant,

E. S. CLARKE.

The Secretaries, Office of Education.

II. Returns from District Inspectors relative to the Religious Denominations of Pupils.

No. 19.—RETURN of INSPECTOR of DISTRICT 38, relative to the Religious Denominations of the Children attending the National Schools in his District.

Limerick, 30th June, 1852.

GENTLEMEN,—I beg to acknowledge the receipt of your letter, of yesterday's date, and to state, that since your communication of the 12th reached me I have been making inquiries of the Managers of many National Schools, with the view of ascertaining if the united system of Education has been carried out in them; I find, however, that owing to the population of the classes who send pupils to National Schools being almost exclusively Roman Catholic in most parts of this district, that the attendance is generally of that persuasion. I am still continuing to inquire on the subject, and shall forward reports on all mixed schools according to your instructions.

I remain, Gentlemen, your obedient servant.

H. P. CLARKE.

The Secretaries, Education Office, Dublin.

Limerick, 24th June, 1852.

GENTLEMEN,—Having inspected the Villiers Male and Female National Schools (Roll Nos. 6,031 and 6,141), City of Limerick, I beg to report that they offer a striking instance of how well the system administered by the Commissioners is calculated to afford opportunities to persons of all religious persuasions, of sending their children to receive together, in the same school, a good useful education. They are held in the Villiers Institution, which was founded some years ago by means of a legacy from the late Mrs. Villiers. It comprehends twelve separate residences for poor widows, who are allowed in addition £22 a-year each, and fuel, with two commodious school-rooms and dwellings for the master and mistress attached. The trustees and managers of the schools are the Rev. Robert Stavelly, Rector of St. Munchin's, and the Rev. David Wilson, Minister of the Presbyterian Congregation. Both Schoolmaster and Mistress have been trained in the Dublin Model School, and upon the many occasions upon which I have visited the schools, I have, invariably, found them actively employed with the business of the day. They are of the Presbyterian Communion, and the Master is assisted by a Paid Monitor who is of the Established Church. The following are the numbers of the different religious denominations on the roll the 21st June.

	Males.	Females.	Total.
Established Church,	14	10	24
Roman Catholic,	49	30	79
Presbyterians,	9	4	13
Other Denominations,	1	1	2
Total,	73	45	118

APPENDIX B.

II. Returns from District Inspectors relative to the Religious Denominations of Pupils.

There is, of course, no interference whatever with the religious principles of the pupils, and it is to this that the attendance of the pupils of different denominations is to be attributed; neither is there any reward, pecuniary or otherwise, held out to induce attendance; the advantage to be derived from the very efficient school education received is the only attraction. The following Table shows the numbers paying the various rates, and free:—

	Males.	Females.	Total.
At 5*s*. per quarter,	2	1	3
,, 2*s*. 6*d*. per quarter,	3	–	3
,, 1*s*. per quarter,	26	3	29
Total paying,	31	4	35
Free pupils,	42	41	83
Total,	73	45	118

The schools are situate in one of the poorest parts of the city, and the population is almost exclusively Roman Catholic.

I have the honour to be, Gentlemen, your obedient servant,

H. P. CLARKE, District Inspector.

The Secretaries, Education Office.

VII.—List of Teachers in National Schools to whom Premiums were paid in the Year 1852, for Order, &c., &c., in accordance with the following Scale.

No. 1.—Scale of Premiums to the Masters and Mistresses of National Schools who are most distinguished by the order, neatness, and cleanliness observable in themselves, their pupils, and in the School-houses.

The sum of £14 10*s*. to be allocated to each of the School Districts, to be divided into Nine Premiums:—

One of	£3 0 0	Three of £1 10*s*. each, ...	£4 10 0
Two of £2 each, ...	4 0 0	Three of £1 each, ...	3 0 0

These Premiums are to be awarded annually on the recommendation of the District Inspector, and paid at the end of the year.

No distinction to be made between Vested and Non-Vested Schools.

No Teacher eligible for these Premiums for more than two years in succession.

These Premiums will be awarded without reference to the Class in which the Teachers may be ranked: but none will be deemed eligible to receive such Premiums against whom there may be any well founded charge of neglect in the performance of their duties, of impropriety in their conduct, or whose Schools are not conducted in a satisfactory manner.

VIII.—List of Teachers of Workhouse Schools to whom Gratuities were paid in the Year 1852, in accordance with the following Scale :—

No 2.—Scale of Gratuities to Masters and Mistresses of Workhouse Schools in connexion with the Board of National Education.

The Commissioners of National Education have resolved, with the concurrence of the Poor Law Commissioners, to award annual gratuities to a certain number (Twenty Males and Twenty Females) of the Teachers of the Workhouse Schools, in connexion with the National Board, who shall be recommended by the District Inspectors.

The Gratuities are divided into two Classes :—

For Male Teachers, { First Class, . . Ten at £6 a Year each. Second Class, . . Ten at £4 a Year each. | For Female Teachers, { First Class, . . Ten at £5 a Year each. Second Class, . Ten at £3 a Year each.

The payment will be made half-yearly, with the usual issue of Salary to Teachers of National Schools, after the 31st March, and 30th September, in each Year.

It is to be distinctly understood that such gratuities are given in *addition* to the Salaries paid to the Teachers of Workhouse Schools under the provision of the Poor Law Act.

No Teacher is precluded from receiving the gratuity two or more years in succession, if recommended by the District Inspector as deserving of it; but a Teacher having once received it, is not thereby *entitled* to a continuance of it.

Maurice Cross, } *Secretaries.*
James Kelly, }
